At 6:45 o'clock a evening the president's train will ve Birmingham for Littl eRock, ansas.

Welcome at Tuskegee.

Tuskegee, Ala., Oct. 25.—President oosevelt arrived in Tuskegee at 8:30 clock this morning, this train being n time.

The city was beautifully decorated. A number of arches, the foundations of which were made of bales of cotton, were erected and covered with bunting. The platform from which the president spoke was made from $30,000 worth of cotton in original bales. The president was met at his train by a reception committee, among whom were Mayor O. S. Lewis and Dr. John Massey, president of the Alabama Conference Female college. Escorted by a company of state militia, the president was driven to the college grounds which represented a typical southern scene. Cotton had been transplated in long rows and two old southern negroes, with cotton pickers' sacks on their shoulders, were engaged in picking cotton from the plants. Several baskets of cotton were scattered about the field.

The president was greeted at the college grounds by students of the institution and public school children. The president's address here was a short one and at its conclusion he left for the Tuskegee Normal and Industrial school.

Birmingham in Gala Attire.

Birmingham, Ala., Oct. 25.—Birmingham is in gala attire for President Roosevelt, who is expected to reach here at 4:45 o'clock this afternoon from Montgomery. When his train reached the city limits every steam whistle in the city will blow for five minutes, while the presidential salute will be fired from the top of Red mountain to the south of the city.

A reception committee of five hundred prominent citizens will meet him at the union passenger station, where Mayor George B. Ward will make a short welcome speech on behalf of the municipality, and will present the president with a handsome badge of gold and satin commemorative of his visit. The party will then take carriages and move up Twentieth street to Capital park, the president being escorted by numerous military and civic bodies from all over north Alabama.

At the park he will be formally welcomed and introduced by General Rufus N. Rhodes, editor of the Birmingham News. Here the president will speak, after which Miss Sophia Wittichen, grand niece of Admiral Semmes, of confederate fame, will present him with a souvenir confederate badge on behalf of Camp Hardee, U. C. V.

Hurrying from Capital park to the state fair grounds, 3 miles away, the president will make a second speech, being introduced by Thomas H. Molten, president of the Birmingham Commercial club. From the fair grounds the party will return to the city and the president will leave for Little Rock, Ark.

TO BE CHANGES IN THE CABINET.

It is Rumored that Several Members Will Shortly Resign.

Chicago, Oct. 25.—A dispatch to the Tribune from Washington, D. C., says that after the return of President Roosevelt to Washington from his southern tour, there will be a renewal of rumors regarding impending changes in the cabinet, and within six months or so, after the re-opening of congress, it is more than likely that the complexion of the cabinet will be completely changed.

This does not mean that every one of the present cabinet of ministers is to go out, but there will be two or three new members and probably three radical changes in position before the close of the current fiscal year.

Secretary Shaw is to go out of the cabinet of his own notion as a preliminary to his formal entry into the presidential race. The vacancy of the head of the United States treasury department will be filled according to the present outlook by the transfer of Postmaster General Cortelyou. Attorney General Moody has been expecting to go out for some time. He remains at the head of the department of justice largely, if not entirely, then he may carry on the prosecution of the beef trust cases. His place probably will be filled by Charles J. Bonaparte, the present Secretary of the navy.

This turn will create another vacancy and the new head of the navy, according to the present slate, wil be George Von L. Meyer, the present ambassador to St. Petersburg.

CANNOT LOCATE COMPTROLLER.

The Man Who Examined Pittsburg Bank is Missing.

Pittsburg, Oct. 25.—Renewed interest is being manifested in Enterprise National bank affairs by the report that William B. Ridgely, comptroller of the currency is in this city, but all efforts to locate him have been unsuccessful.

Bank Examiner Cunningham, receiver of the Enterprise bank, remains silent regarding the bank's affairs, and emphatically denies that he has made any of the conflicting statements that have been credited to him. He reiterated that his report when finished, will be sent to Washington.

A meeting of the directors of the Standard Building and Loan associations Nos. 1 and 2, of which the late Cashier Clark was treasurer and a director, has been called for tomorrow. The directors say a hurried inspection of the books show the accounts to be satisfactory.

Suffering from Epileptic Hysteria.

Chicago, Oct. 25.—Apparently suffering from rabies which arose from a bite of a dog thirteen years ago, Amanda Jones, aged 27, was taken from her home to a hospital yesterday. The patient when 14 years old was bitten on both hands by a dog but the wounds were cauterized and no ill effects appeared until last June, when she suddenly developed all the usual symptoms of hydrophobia and became violent. The physicians are inclined to believe that the disease is "behind of epileptic hysteria, itself of rare occurrence.

SOCIETY LEADER IS ARRESTED FOR THEFT

Police Unravel a Long Standing and Baffling Mystery.

ACCUSED MAKES A CONFESSION

While He Had Been Posing as a Society Man and Was Holding a Lucrative Position, He Would Enter Residences at Night and Rob Them.

Middletown, N. Y., Oct. 25.—By the confession of Charles Boos, until a few days ago, the general superintendent of the Wallkill Terminal lines, in Orange county a spectacular police mystery has been solved.

According to the police he admitted to them that he had robbed one of the largest department stores in the city, besides several residences in the last few months.

Roos jokingly reminded the police that he himself had raised the hue and cry one night a few weeks ago when a burglar was chased out of the residence of F. P. S. Crane, a wealthy man. He said the police were close on him before he got out of the house and that he ran ahead of them shouting: "Stop thief!" "Catch that man! This ruse worked so well that Roos resorted to it a few nights later when he had forced his way into the home of J. L. Pendleton and from which he was frightened by an alarm.

Boos is regarded as a modern social highwayman. He drew a large salary as superintendent of the big transit corporation and lived in good style on one of the principal streets of the city. He was popular in society and dressed in the latest fashion. He was apparently one of the busiest men in the town and he was seemingly an exemplary man of business.

A search of Boos' fine apartment revealed valuable plunder for which the police have long been looking and which, it is alleged, had been taken from prominent apartment stores and private residences. Confronted with the goods, Roos, it is said, confessed.

Woman Arrested for Abducting Girl.

New York, Oct. 25.—In response to an appeal made by William H. Ainsted, a wealthy publisher of this city for assistance in recovering his 18-year-old daughter, Mabelle, officers yesterday searched the home of Mrs. Jessie K. Graeffe. Failing to find the girl, they arrested Mrs. Graeffe on a technical charge. Mrs. Graeffe is a daughter of the late United States Judge McIntosh, of Georgia. Mabelle has been absent from her father's home at White Plains since Oct 13. Ainsted alleges that Mrs. Graeffe has a powerful influence, suggestive of hypnotism, over his daughter. Both Mrs. Graeffe and Mr. Ainsted say that much light would be thrown on the case today when Mrs. Graeffe will appear in court for examination.

Cotton Makes Good Advance.

New Orleans, Oct. 25.—Liverpool closing at 44 American points higher on near positions and the report of the National Ginners' association coming out to the effect that there had been ginned up to the 18th of this month 4,343,000 bales of cotton compared with 6,418,000 bales last year, caused the active future positions in the cotton market to open 32 to 34 points higher. The National Ginners' association estimates that 45 per cent of the crop has been ginned up to the 18th and as this means a total crop for the season of only 9,655,000 bales, the shorts were given the worst scare of the season. The rush they made to cover sent the prices up nearly two dollars per bale in the early trading.

Evans May Run for Governor.

Chattanooga, Tenn., Oct. 25.—The News today says that information of a most reliable character has been obtained to the effect that Hon. Clay Evans, ex-commissioners of pensions and ex-counsel general to England, in communication with leaders of the Republican party throughout the state and that he will announce his candidacy for governor. Mr. Evans' voting home and business interests are in this city.

SERIOUS CONFLICT IN RUSSIA.

Troops and Citizens Engage in Melee. Many Casualties Reported.

Kharkoff, Russia, Oct. 25.—A serious conflict between troops and the people during which there were many casualties on both sides ocurred here last night. While a meeting of 20,000 citizens, students and workmen was in progress the cry of "the Cossacks are coming!" suddenly raised and a panic followed.

Many persons were injured in the crush. Subsequently the crowd came in conflict with a detachment of cavalry, revolver shots were fired by some of the civilians and small bombs were hurled among the cavalry. The latter thereupon fired two volleys with blank cartridges and then fired with bullets. Both sides suffered seriously. Many of the wounded were left on the ground when the crowd dispersed.

Strikers have since plundered the gunsmiths' stores and have armed themselves, a number of bakeries have been destroyed and all work has been stopped at others.

A scarcity in the necessaries of life is already felt here.

SEVERAL INJURED IN WRECK.

Southern Train Meets With Accident at Gadsden, Ala.

Gadsden, Ala., Oct. 25.—Passenger train No. 116 on the Rome and Decatur division of the Southern was wrecked at Tenth street crossing in this city. No one was killed. The injured are Conductor R. H. McEacheon, badly cut about the face and head, not serious; Mrs. S. C. Miller, Rome, Ga., hip dislocated; J. H. Foster, of Gadsden, Ala., knee hurt. Four others were slightly bruised.

A defective switch is said to be the cause of the wreck. The engine passed the switch safely, but the two other coaches split the switch and went into a side track and ran into a car load of pig iron.

The entire front and left of the combination mail, express, bagage and smoker was shattered into splinters. T. S. Swanson, mail clerk, was unhurt.

The front passenger coach jumped the track, the tender of the engine left the track and turned on its side, but the engine did not leave the track. A thin bar of iron was found near the switch and it was reported this caused the wreck, but this is not credited.

Terror Reigns in Syrian Colony.

New York, Oct. 25.—The assertion that a reign of terror has prevailed in the Syrian colony of New York city for the past three months and that the section is more dangerous than Chinatown, where several lives have been lost in pistol fights recently, was made today by Justice Wahle, of the Tombs police court. The Syrian district is on the lower West Side of Manhattan island. There is a riot in the district last night between two factions of Syrians, one supporting and the other opposing Bishop Hawaweeny. A score of persons were stabbed. When the prisoners were arraigned today Magistrate Wahle postponed action on their cases in order to present to District Attorney Jerome, the menace to life which is said the colony has become.

Tokio Has Big Reception.

Tokio, Oct. 24.—Noon.—Tokio's reception today to officers and men from the combined fleet will be a most notable affair. The day was extremely fine and the public enthusiasm was unparalleled. The procession moved from the Shimbashi railway station at Uyeno Park, along the crowded street. The air was rent with thunderous cheers. Admiral Togo's carriage was profusely decorated with flowers and the public feeling to him was next only in warmth to that shown the emperor.

Fighting Insurance Rates.

New York, Oct. 25.—Fresh impetus was given to the fight against the new rates established by the Royal Arcanum yesterday by a new application by James Lawrence Mock for a permanent injunction to prevent his suspension for failure to pay the increased dues put in force on Oct. 1.—The application was made in the supreme court in Brooklyn and after short arguments the hearing was adjourned to next Monday. The decision in this case will affect more than 300,000 members of the order.

ONLY ONE DEATH AND ONE NEW CASE

This is the Record of the Yellow Fever in New Orleans.

IDEAL WEATHER CONTINUES

The Whole Country Has Full Faith in the Assurance of the Federal Authorities that the Fight Against Yellow Jack is Won.

New Orleans, Oct. 25.—Up to noon today there was only one case of yellow fever reported no deaths. Unofficially there was a report of one death, the first to occur in nearly a week.

Ideal weather continues here and the fever is progressing to complete extinction. The total number of cases under treatment is only 63, which was the number of new cases frequently reported for a day in August. At the rate that cases are now being discharged, the probability is that a week will see the final wind up of the fight.

The whole country has full faith in the assurance of the federal officers that the fight is practically over is evidenced in the rapidity with which quarantines are being done away with. There seems no reason to doubt that within a week none will be left.

Meridian has finally thrown her gates open to the world and that means the complete resumption of travel over the Queen and Crescent road. Practically all the towns along the Mississippi gulf coast have removed restrictions, Biloxi being the exception, and the Louisville and Nashville will resume all its trains. Large numbers of people who have been on the coast since the fever started are coming into New Orleans for the president's reception.

Grant, Iberia, Caldwell, Point Coupee, St. Mary, West Carroll and Calcasieu are again opening their doors to New Orleans.

As the result of heavy frosts a large number of Mississippi towns have discharged their inspectors and ordered the removal of all embargoes on travel. Jackson, Miss., and Mobile, Ala., however, are exceptions to the general movement to restore, intercourse, both of those cities declining to act favorably on the appeal for abrogation of quarantines. Dr. White, however, hopes to be able to get away to Mobile today and his visit there may preclude the lifting of the Alabama bd.

The fever has been completely stamped out at Lake Providence and Dr. William Krauss, of the Marine hospital service, is preparing to leave. Tallulah is also practically rid of the fever.

All the surgeons who have been scattered over Louisiana and Mississippi are now being relieved of their work. Most of them will come to New Orleans to be present at the president's reception and then go back to the various stations.

The fight in Jefferson parish, which was one of the worst in the state, is considered over, and the Marine hospital offices in the parish have been closed.

Eccentric Character Dead

Nashville, Tenn., Oct. 25.—Uncle Bije Humphrey, an eccentric character, was found dead by the road side near his cabin in Adair county, Kentucky, aged 85 years. Since the death of his wife ten years ago he had lived the life of a hermit. A few days after her death the grief-stricken husband dug up and took the body to a cave, where he made regular daily visits up to the time of his death. He claimed that his wife's corpse looked at natural as life.

Man Arrested for Swindling.

New York, Oct. 25.—Carrying an ear trumpet and soliciting alms, William Timberlake, a victim of the police who had been passing worthless checks on Broadway. Timberlake said he was a stranded ranch owner from Edna Tex., and said he wanted money to get back home. Several saloon keepers identified him as the man who had given them bad checks. Timberlake is held a prisoner. He is said to be wanted in Georgia on a charge of forgery.

SOUTHERN BELL AGAIN IN CHECK

Seaboard Endeavors to Prevent Them From Crossing Tracks.

CLAIM THAT IT IS HAZARDOUS

To Lives of Passengers, and Also to Traffic—An Interesting Injunction Suit Which Will be Watched by the Florida Bar.

The Southern Bell Telephone and Telegraph Company, who for the past few months have been endeavoring to construct a long distance telephone line connecting Gainesville and Jacksonville, and through Jacksonville the outside world, seems to be meeting with a great many disadvantages. At the beginning those entrusted to the duty of securing a right-of-way were slow; the contractors delayed the work for some time on account of failure to deliver poles, and other obstacles have been placed in way of the work, notwithstanding that the Southern Bell Company have been anxious to push the same.

But the latest obstruction comes from Starke, and is in the nature of a bill of injunction prohibiting the crossing of the tracks of the Seaboard Air Line at that place. Starke is the first point at which it has become necessary for the wires of the Southern Bell to cross the tracks of the Seaboard, and that great corporation, through its attorney, has caused to be issued from the judge of the Eighth Judicial Circuit a writ of injunction, upon the grounds that the crossing of the wires of the Southern Bell Telephone and Telegraph Company may interfere with traffic, and may endanger the lives of passengers on said road.

The outcome of this injunction will be awaited with considerable interest by those interested, and the members of the profession throughout the State. Attorneys for the Southern Bell cannot understand the attitude taken by the Seaboard at this particular point, since they declare that no objection has ever been made in similar cases elsewhere.

Attorney J. E. Futch of Starke is presenting the case for the Seaboard, while Attorney Evans Haile of this city represents the Southern Bell.

The Cormorant.

The cormorant is trained by the Chinese as a fishing bird. A ring is placed around the bird's neck, which prevents it from swallowing the fish it has taken. One Chinaman will utilize a dozen of these birds during the day's fishing, sending them under the water in regular succession. They were formerly used in the same manner in England. Charles I. had an officer of his household designated as master of the cormorants.

Bet the Girl to Endure a Slight.

"We need no ring to plight our troth," he suggested as he kissed her impetuously.

"Yes, we do," retorted the maiden. "None of your sleight of hand tricks with me."

DEATH OF GOOD LADY.

rs. W. D. Fagan Passed Away Wednesday After a Brief Illness.

Friends were shocked Wednesday to arn of the death of Mrs. Ella Fagan, e devoted wife of W. D. Fagan, hich occurred at an early hour Wed- sday morning, after a brief illness hich resulted unexpectedly in her mise.

Deceased was about forty years of ge. She was born in this county, near Windsor, where she spent her girlhood ays, and where as a child she was a eneral favorite with all. Growing in- womanhood she became posessed of most charitable, sweet disposition, hich retained the friendship made as child, and no one who knew her ould help but admire her for this Christian disposition. She was a laughter of Mr. and Mrs. F. A. Bell.

About seven years ago deceased was married to W. D. Fagan of this city, and has since resided here. She is sur- vived by a husband and one child, a little son, to whom the sympathy of the community is extended.

The remains will be taken to Provi- dence this morning, where the funeral will be held, the interment being in the Providence burying ground.

Failed Because of Suicide.

New York, Oct. 25.—Involved, it is said, because of the death by suicide in Paris Last August, of Ernst Cron- ier, a large sugar operator, whose debts amounted to $20,000,000, the firm of E. Reboulin Fils & Co. manufacturers of fruit glasses, with offices in this city, has passed into the hands of receivers. The firm was incorporated under New Jersey laws in 1903, with a capital of $1,200,000. Only as a precautionary measure, it is said, are the receivers appointed, as the corporation has am- ple assets to pay all of its liabilities. The corporation has a factory at Eliz- abeth, N. J.

American Railway Men In Session.

Chicago, Oct. 25.—The biennial meeting of the American Railway ses- sion was held here and it was decided to continue through Thursday. The meeting will attract to Chicago most of the prominent operating officials of the country. The office of first vice president is to be filled. After the place are W. C. Brown, vice president of the New York Central lines; Theo- dore Voorheis, present incumbent and Vice President F. P. Holiday, and B. L. Winchell, president of the Rock Island. It is predicted that Mr. Voor- heis will be re-elected.

New Cure for Cancer.

All surface cancers are now known to be curable by Bucklen's Arnica Salve. Jas. Walters of Duffield, Va., writes: "I had a cancer on my lip for years that seemed incurable, till Buck- len's Arnica Salve healed it and now it is perfectly well." Guaranteed cure for cuts and burns. 25c at all drug stores.

Suicided on Son's Coffin.

New York, Oct. 25.—Crazed with grief over the death of his son, who committed suicide with illuminating gas last week, Herman Schultz shot himself through the head today while the funeral service was being read over the body of his son, and fell pros- trate across the coffin, dead. Mrs. Schultz and her three daughters faint- ed, and the funeral of the son was post- poned that both the father and son might be buried together.

If the Baby is Cutting Teeth

Be sure and use that old and well- tried remedy, Mrs. Winslow's Sooth- ing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twen- ty-five cents a bottle.

Mayor Will Use Referendum.

Chicago, Oct. 25—Mayor Dunne has a new use for the referendum. He wants to try it on the question of whether saloons should be closed on Sunday or not. If a majority are for closing, then he will do his best to obey. If the decision is the other way, things are to remain as they are. He made the suggestion while discuss- ing a demand for his indictment made in a sermon on Sunday by the Rev. W. A. Bartlett, of the First Congrega- tional church. Mr. Bartlett wanted him punished for not closing up the drinking places on the Sabbath.

Ship's Crew Gets a Bonus.

San Francisco, Oct. 25.—Two thou- sand dollars was awarded to the crew of the Pacific Mail liner Siberia for bringing the vessel into port from Yo- kohama in record-breaking time. E. H. Harriman, the railroad magnate, who was a passenger on the steamer, was the donor. He won the money from Robert Goelet, the New York mil- lionaire, on a wager regarding the time that the steamer would make from Yo- kohama to this port. Harriman bet that the Siberia would break the recent record established by the Korea. He won by 37 minutes.

Several Hurt in Trolley Collision.

New Baltimore, Mich., Oct. 25.— Half a dozen persons received severe injuries and nearly twenty more were slightly hurt today in a collision be- tween a railway electric car south bound from Port huron for Detroit and a construction train of four cars in the eastern part of this village. The heavy passenger car, which was running 40 miles an hour when the collision oc- curred was completely wrecked and one of the loaded freight cars was broken in two pieces.

Don't be Imposed Upon.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imi- tations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

Killed His Divorced Wife.

Mountain Home, Ark., Oct. 25.— News reaches here of the killing of Mrs. James Russell, by her husband, who lives on Big Creek, in the eastern park of Baxter county. The tragedy grew out of a divorce suit at which the wife secured a divorce and the custody of the only child. When she present- ed the court's order for the child, Russell shot her, and as she started to run, shot her again, inflicting fatal wounds. He then turned the gun on himself and inflicted a wound that is likely to prove fatal, although he is still alive.

The demand for cultivated ginseng root is not what it is claimed by those who have the plants for sale. The wild product is what brings the price.

The Democratic Executive Committee of Dade county has endorsed the appointment of Mrs. E. C. Dearborn to the office of clerk, to succeed her late husband.

The recent strikes on the trunk lines of railroads in Rusia have completely paralyzed trade. With a scarcity of crops in that country there will be great suffering among peasantry this winter.

There are so many ways of gambling that it will be a hard matter to stop it. When a man rents a piece of land for the purpose of raising crops, from the sale of which he expects to pay the rent, he has to take chances.

An exchange asks: "Is there hope for the Democracy?" In some localities there is. Until the insurance company boodle difficulty is settled, it will be a hard matter to tell what the outlook is in New York City. Mr. Hearst may cut quite a figure, as he is the municipal ownership candidate. But if he is only running for mayor to draw from the regular Democratic candidate, there may not be so much hope.

During the past baseball season Miami thought they had a nine that could do the "Basco" act to all the teams along the East Coast. They met the enemy and in about nine cases out of ten were theirs. They had a hard time; got into some warm discussions and were roasted to a turn. County Attorney Taylor put in his oar; The Tropical Sun at West Palm Beach showed him up, and now he has made up his mind to bring an action for libel, to get redress for the lampooning he received.

There is truth in this from The Birmingham News: "Search the criminal records of the land and they will show that more than 75 per cent of the crimes of bloodshed are directly attributable to the concealed weapon, and the horror of the record is that most of the crimes are unreasonable and unwarranted. The concealed weapon makes crime so easy that it is done without thought or consideration, often without reasonable provocation. Imaginary insults quicken the pulse of feverish indignation and some innocent, imaginary offender suffers death or injury and one more criminal is added to the too rapidly growing calendar of convicts and desperadoes."

ABOUT THE BUCKMAN BILL.

The St. Augustine Record, in publishing the letter of Hon. N. P. Bryan, chairman of the Board of Educational Control of the State, precedes the communication with the following sensible editorial comment:

"The Miami Record recently published something about the Buckman school bill and predicted that it would be repealed by the next Legislature, whereupon The Jacksonville Metropolis took up the cry and republished the Miami 'dream,' together with the statement that there will be strong objections raised to an appropriation for the new University of Florida.

"This matter of securing the right system of education in the State of Florida is actually the most important of the present day. Drainage schemes and whatever else may be before the public, are overshadowed when the education of the youth of the State is up for consideration. It is time that some of the State papers stop pandering to those who are ever on the lookout for some excuse to 'kick'—there is no better way to put it—and unite in furthering a system that has been adopted by the Legislature as being the very best for the State.

"It was not to be expected that such misrepresentations as those attempted should be allowed to go unchallenged by the Board of Control. Chairman N. P. Bryan of Jacksonville has issued a statement that should be read by every elector so that a correct understanding may be had of the aims and laudable ambition of the Board of Control—an ambition to place Florida's educational system on a strong and lasting basis. The Board of Control has evidently been able to look well into the future. The members have not been confined to a circle the circumference of which does not go beyond the next election day. What they have done, what they are doing, and what they hope to do is all based on an idea of permanency, and it is therefore a shame for any paper to try to make such an important matter as the education of the young generation the plaything of would-be political meddlers."

SUNDAY SCHOOL INSTITUTE.

A Sunday school institute will be held in Tampa, November 26th to 29th, inclusive. Dr. H. M. Hamil and wife, two of the most competent workers in this line in the United States, will be in charge. The institute will be interdenominational, and the sessions will be held in the First Baptist Church. Sessions will be held in the forenoon only, with popular lectures at night. One hour will be given each day to Bible study.

The ministers of Tampa urge Sunday school workers to make preparations to attend the institute while visiting the Fair. The Fair will be great, but we expect this institute to be greater. This is an opportunity which does not come to us every day. The work for children is commanding the attention of the best thinkers of the age. Dr. and Mrs. Hamil have enjoyed rare advantages, and have unusual adaptations for this work. Let everybody come and get inspiration and help.

COMMITTEE.

FRUIT AND FOWLS.

Great interest is being taken throughout the State in the movement to organize during the Fair at Tampa the Florida Citrus Fruit Growers' Association and the Poultry Breeders' Association, calls for which have been issued by President T. J. L. Brown of the State Fair Association. The poultry breeders meet in Tampa Tuesday, Nov. 21, while the citrus fruit growers meet the following day. A cordial invitation is extended every citrus fruit grower and poultry breeder in the State to attend these meetings.

STRONG CANDIDATE.

A precocious Georgia lad who was hardly old enough to speak plain, had been mingling with the older members of the family and had heard nothing but politics and the "strength of Hoke Smith" as a candidate for Governor, when he went down town with his father to one of Atlanta's grocery stores. His father, who was fond of cheese as a relish, saw some Limburger and playfully asked the lad what it was. He inhaled the odor, which made him turn his head and exclaim: "I don't know, but des it's Hoke Smif."

Brain Workers.

Brain workers suffer from headache because they over-tax and exhaust the brain nerves.

Tired, irritated, turbulent brain nerves throb and ache; this weakens the brain power, and robs the memory.

Dr. Miles' Anti-Pain Pills bring tranquility to the excited nerves and stop the pain.

If not relieved, this nerve disturbance is frequently extended to the stomach, causing nausea, vomiting—sick headache.

Dr. Miles' Anti-Pain Pills are convenient to take—just a little tablet, that in a few moments relieves the pain; they leave no disagreeable after-effects, as they contain no opium, morphine, cocaine or chloral in any form.

"From personal experience I can testify that Dr. Miles' Anti-Pain Pills are a most excellent remedy for headache and neuralgia. I have been a great sufferer from both diseases for the past three years. A friend who had also suffered from neuralgia handed me some of the Anti-Pain Pills. I took them and they gave me almost instant relief. Since then I have a package at home, and another at the office, and they never fail to relieve me." R. V. MEGARY, 337 S. Sawyer St., Chicago, Ills.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails he will return your money. 25 doses, 25 cents. Never sold in bulk.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mis- take by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root**, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Bing- hamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the ad- dress, Binghamton, N. Y., on every bottle.

MISS ALICE ROOSEVELT RETURNS

She Reaches San Francisco on the Liner Siberia.

San Francisco, Oct. 25.—The Pa- cific Mail Steamship company's liner Siberia arrived at this port today di- rect from Yokohama.

There were many distinguished pas- sengers on the Siberia, among them being Miss Alice Roosevelt, United States Senator Newlands, of Nevada, and wife; United States Senator War- ren, of Wyoming; Representative Longworth, of Ohio; Brigadier General H. T. Allen, chief of the Philippine constabulary; E. H. Hartman, presi- dent of the Southern Pacific company; R P. Schwerin, vice president and gen- eral manager of the Pacific Mail Steamship company, and Miss Mabel Boardman and Miss Amy McMillan, of Washington, D. C., the latter being traveling companion of Miss Roose- velt. M. Shoraishi, vice president of the Tokio Kisen Kaisha Japanese steamship line, also came over from the Orient.

Miss Roosevelt and party left at 3:30 this afternoon for the east over the central route of the Southern Pa- cific, connecting with the Union Pa- cific and the Chicago and Northwest- ern lines via Chicago for their homes.

Full of Tragic Meaning

Are these lines from J. H. Simmons of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discov- ery for consumption, coughs and colds, which completely cured me." Instant- ly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At all druggists; guaranteed; 50c and $1.00. Trial bot- tle free.

Town Shut Out from World

Chicago, Oct. 25.—A mode of life somewhat resembling that of frontier settlements in early days was inau- gurated today by a coke company, with extensive ovens at South Deering. A grim stockade surrounds the plant of 1,000, will live and labor within the walls, practically shut off from the outer world. Hundreds of cottages and store buildings and places of enter- ment, including a dance hall have been provided. The purpose of the stock- is not defense, but to make a modern colony of workers, who will not be con- tinually changing employment. Cur- few will ring at 9 o'clock, and iron-clad rules will govern the lives of the work- ers. The dance hall was opened with a ball for the workers.

Astonishing Incident.

It was, to all her friends, an astonishing incident that Mrs. I. B. Hunt of Lime Ridge, Wis., was cured of her dreadful sickness. "Doctors," she writes, "had given me up; friends were ready to bid me the last farewell; clouds of despair darkened my horizon, and I was a wreck on the shores of des- pondency, when I began to take Elec- tric Bitters for my frightful stomach and liver complaint. To the astonish- ment of all, I was benefited at once and am now completely and miracu- lously restored to health. At all drug stores; price 50c; guaranteed.

SHORTAGE OVER ONE MILLION.

President of Defunct Pittsburg Bank Gives Out Statement.

New York, Oct. 25.—A special to the Tribune from Pittsburg says Fred. Gwynner, president of the defunct En- terprise National bank, when asked yesterday what the shortage of the Enterprise would amount to said:

"It will be very large, much larger in fact that we first supposed. From what I know now, it will reach, $1,500,- 000. None of the directors or offi- cers, not even myself, had any idea that it would reach such an enormous sum as that.

"The directors have determined, how- ever, that no matter how great the shortage, it will be paid and the bank re-open for business. We hope be- fore a month elapses it will be in op- eration, and will eventually hold up its head and occupy the proud position that it formerly commanded."

How to Cure Corns and Bunions.

First, soak the corn or bunion in warm water to soften it; then pare it down as closely as possible without drawing blood and apply Chamber- lain's Pain Balm twice daily, rubbing vigorously for five minutes at each ap- plication. A corn plaster should be worn a few days to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequaled. For sale by all druggists.

Statistics of Killed and Injured.

Washington, Oct. 25.—During 12 months ended June 30, 1905, 886 per- sons were killed and 13,783 injured as the result of accidents on railroad trains, according to a report of the interstate commerce commission issued today. Comparison with 1904 shows an increase of 11 killed and 4,123 injured among passengers and employees, the increase in killed being wholly among passengers, while the number of em- ployees killed shows a decrease of 106. There were 1,231 collisions and 1,535 derailments, of which 163 collisions and 168 derailments affected passenger trains. The damage to cars, engines and roadway by these accidents amounted to $2,410,671.

Bryan Meets Admiral Togo.

Tokio, Oct. 25.—William J. Bryan was present at the reception today in honor of Admiral Togo. The mayor introduced Mr. Bryan to the admiral. An exchange of cordial sentiments fol- lowed. The admiral was delighted at the unexpected presence of Mr. Bryan.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The lit- tle white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new re- sult of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c, in stamps for sample to The Herpicide Co., Detroit, Mich.

Keep Your Head Clear

And your stomach free from Indiges- tion if you would be happy with your family and your fellow-man.

The surest thing on earth to get a man's sys- tem "out of whack" is heavy, soggy bread, which is caused by several reasons: First, the material may not be good: second, the cook- ing may be poor. The best flour in the world will make the heaviest bread if improperly mixed or cooked. WE USE THE BEST FLOUR and our "long suit" is knowing how to mix and bake it. Our bread does not cost any more than home-made, and in many instances it is so much more palatable.

SORES-ULCERS THE BLOOD DISEASED -SYSTEM DISORDERED

When a Sore or Ulcer is slow in healing it is the best evidence of a dis- eased condition of the blood and a disordered system. They show that the bodily impurities, which should pass off through the natural channels of nature, are being retained in the system from some cause. The blood ab- sorbing the waste matters becomes steeped in poison which finds an outlet through the Sore or Ulcer, keeping it inflamed, painful and festering. As the blood constantly discharges its poison into these places, they eat deeper into the surrounding flesh and tissues, growing larger and more offensive in spite of all the sufferer can do, until the entire health is affected. Washes, salves, powders and such treatment are desirable for the reason that they are cleansing and also help to relieve the pain, but they are in no way curative. The blood is filled with poison, and until it is removed the sore cannot heal. S. S. S. is the only cure for these evi- dences of impure blood. It goes down to the root of the trouble and cleanses the circulation of all poisons and impurities. S. S. S. enriches the blood and reinvigorates the different mem- bers of the body so that the impurities and waste matters can pass off as nature intended. Then the discharge ceases, the sore scabs over, new flesh is formed, and the place heals permanently. ok on Sores and Ulcers and any medical advice you need without charge

I have not words strong enough to praise your great medicine. I had a sore on my left temple for years. It would itch, burn and bleed, and I could not get it to heal. After taking S. S. S. awhile it began to discharge, and when the poisonous matter was out it healed. this was about ten years ago and I have never seen any sign of it since.

NATURAL MEASURES.

SOME PERSONAL SUBSTITUTES FOR THE FOOT RULE.

Accurately Compile Your Own Table, Memorize It and Then Observe How Frequently It Will Prove of Valuable Service to You.

When the dressmaker wishes to estimate the number of yards in the piece of cloth furnished she will, four times out of five, measure it swiftly between her chin and her outstretched hand, or if it is a matter of inches, she will fold the bended upper joint of her thumb along the cloth.

She calls the one measure a yard and the other an inch, and the estimate is usually close enough to serve her purpose, although there are inches of difference in the length of arms, and a slight turn of the head will cause still greater error.

Since these methods have proved themselves so useful in spite of their inaccuracy, it is easy to see how valuable some similar measures which can be depended on would become.

The individual must necessarily be the first consideration. It is hardly within the bounds of possibility to find two persons identical in those dimensions of which use can be made. Thus each must establish his own table of measures.

The forearm—from point of elbow to tip of middle finger—is one of the most practicable of the natural measures. This is the cubit of Scripture.

Set the point of the bent elbow in the corner of the wall. Holding it firmly there, straighten the forearm and fingers, mark the point reached by the middle digit and measure carefully the distance to the wall. A man is likely to find this measure about twenty inches, a woman about sixteen.

For making a quick measurement of the side of a room, the length of a wood pile, and so forth, this idea has some very useful qualities.

Take the foot rule now and spread, or rather span, the hand to its utmost upon it. There is sure to be a difference between the right and left, so use always the same hand, or have a separate measure for each.

If extended rigidly to its utmost each time the inches "spanned" will be a practically fixed quantity. Note the measurement carefully, as before. It is most likely to be for an adult from seven and one-half to nine inches.

This is an even more convenient measure than that of the forearm, since it can be conveniently applied either horizontally or vertically and at any point where the hand can reach.

The "hand" of four inches used in the measurement of horses is of course derived from the breadth of the palm. But this has become so firmly fixed in its one use that it may as well be omitted here. The measure of thumb and palm is, however, worth consideration. The measurement from the opposite edge of the palm to the end of the extended thumb is very nearly six inches and is therefore a convenient unit.

These measures need, of course, to be supplemented by a shorter one, and here is the opportunity of our old friend the thumb joint. Bend the thumb sharply and measure on the back from the point of the knuckle, over the nail, to the end of the fleshy ball of the thumb.

The resulting "unit" is likely to vary from seven-eighths of an inch to one and one-half inches. If the measurement does not "come out" in even quarter inches use a finger second joint instead. It will be as reliable and almost as convenient.

Everybody knows, or should know, his own height with sufficient exactness, but a still more useful piece of knowledge is the height of the eyes. This is, as a rule, about four and one-quarter inches less than the total height. But do not accept this subtraction for the new table; measure. When one is standing erect, with the face close to the wall, it is easy to mark the exact point in front of one's eyes when they are looking straight ahead. This measure will vary to a trifling extent with the changing thickness of boot soles, and so forth, but such an error rarely rises above one-sixteenth of an inch in the foot.

The measure of one's outstretched arms—beginning and ending with the tip of the middle fingers—is another valuable thing to know. The familiar theory that this "span" is the same as the height is not correct enough to be depended upon for purposes of measurement.

A much used natural measure is the pace. Probably everybody who has much to do with land is accustomed to employ it. The usual way is to stride off, taking as long steps as possible and "calling" each pace a yard. A far better way is to measure the natural step and continue to walk with it. Take twenty or thirty ordinary walking steps on level ground, measure the distance and secure the average length.

When the table of natural measures is fully compiled it will be somewhat like this:

Thumb joint	1¼ inches
Thumb and palm	6 inches
Hand span	9 inches
Forearm	20 inches
Stretch of arms	6 feet 1 inch
Height	6 feet ¼ inch
Height of eyes	5 feet 8 inches
Pace	30 inches

When one has constructed his table, substituting his own measures for those given, let him not merely write it in a notebook, but memorize it. It will be used with surprising frequency. —I. R. Kent in Youth's Companion.

THE DAINTY WASP.

Apparatus With Which He Makes His Complicated Toilet.

"Wasps are exceedingly dainty in their habits," says a writer in the Pilgrim, "and, in order that they may gratify their instinct for neatness to the utmost, nature has provided them with a set of marvelously delicate combs and brushes. If we look closely at the wasp's legs we will find that each bears on its outermost long joint two small, movable spines, known as the apical spurs, and if we examine these with a magnifying glass each is seen to be provided with a row of fine teeth, so that the apparatus answers for a coarse and fine toothed comb.

"The tidying up process consists of various perfectly definite steps, usually taking place in a particular sequence. First, it passes both front legs over the face from above downward, and after repeating this movement several times draws them through the jaws. This is to remove any foreign substance which may have collected on them. The legs are then passed backward from the forehead, much as we should smooth back our hair. The wings are then stroked again and again from the base to the tip, although the most careful observer would fail to detect anything upon them. The abdomen is next carefully stroked from base to tip until every hair points in the right direction and a gloss as fine as satin is attained. Last of all, each of the six legs, in turn, is laboriously drawn between two of its fellows, so the wasp is once more ready to face its world."

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured me sound and well. It is a wonderful medicine and I recommend it to suffering humanity." Sold by W. M. Johnson.

A Story of Washington.

George Washington's head gardener was from some European kingdom, where he had worked in the royal grounds. But coming to America he left his wife behind. Homesickness for his "gude" woman's face soon began to prey on him, and Washington noticed the anxious eye and drooping spirits of his servant. Finally the man went down to the river and declared his intention of shipping to the old country, when who should come up and lean over the side of a newly arrived vessel but his wife. The kind hearted general had secretly sent for the woman, and she fortunately surprised her loving husband in one of his fits of despondency.

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by all druggists.

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by all druggists.

Indolent Rossini.

Rossini was one of the most indolent men that ever lived, yet he wrote operas against time, as it were, "The Barber of Seville," for instance, was written and mounted in less than a month, which fact gave rise to Donizetti's cogent witticism. Upon being told that Rossini had finished his opera in thirteen days Donizetti replied: "It is very possible. He is so lazy!"

Mothers

Who would keep their children in good health should watch for the first symptoms of worms, and remove them with White's Cream Vermifuge. It is the children's best tonic. It gets digestion at work so that their food does them good, and they grow up healthy and strong. Sold by W. M. Johnson.

D WINGED SEA ROBINS.

Are Among the Most Curious Fish Along Our Shores.

pose the peculiarity which would ticed first about the sea robin, r or gurnard, as he is variously would be his clumsy shape. head is large and deep in com- with the body. One of our ob- g young folks, looking at him in his tank of the United States commission, Washington, would t to exclaim, "Oh, see, he has lit- ook claws which help him crawl !" Sure enough, just in front of ectoral or side fins are three little rlike processes on each side, which used to stir up weeds and sand to rake around among the pebbles rout out the small animals upon h the sea robin feeds in its native rs. While doing this it seems to rawling along over the bottom by ing these peculiar claws into the d.

a robins feed on small crabs, fish, mps and other diminutive animals h they find among the loose stones. Europe all the gurnard family of s are eagerly sought, as they find ady sale in the fish market. They in a length of two feet and a ght of eleven pounds. Our species the sea robin, a cousin to the Euro- n variety, is found on our northern st and is taken in great numbers he pound nets along Vineyard sound. ere they spawn during the summer nths.

hey are much esteemed for the ble, being one of the most delicate the edible fishes. The flesh is firm, w white and hard to distinguish m that of the kingfish. The Amer- n sea robins are fifteen to eighteen hes long and weigh from one and e-fourth to two pounds. When taken m the water they grunt quite loudly d if placed on the ground give a tle hop forward of a few inches, unting as they do so. This grunting und can be heard quite plainly if e is in a boat lying quietly in shal- w water near where they are.

The head is sheathed with bony ates and armed with sharp points, hich are rather hard to distinguish first, as they lie quite flat against it. hen caught they erect all their spines d inflict very painful wounds on ose who try to handle them. The ectoral fins are a little more than half s long as the body and may be ex- ended like a fan when in use or fold- d quite close together when on the ottom, thus giving them the name of utterfly fish.

The rays of the tail may also be uch extended to look like a Japanese n.

The color of this peculiar fish is a rownish yellow over the back and les and cream white below. The ectoral fins are deep orange color, ith a blackish marking toward the ips, crossed all over with little dark rown lines and edged with light yel- w orange color. The lower jaw is beautiful turquoise blue, edged with vein of brassy yellow.—St. Nicholas.

Placing the Responsibility.

A small boy, not more than seven or eight years of age, was once sent to the office of a Brooklyn school principal for some offense. The principal saw that the little fellow had an unusually straightforward and honest appearance, so he concluded to lead up to the proper punishment for the young offender by asking him a few questions.

"If you were a teacher what would you do with a boy who acted as you did this morning in the classroom?" he asked.

"I'd send him to the principal," promptly replied the boy.

"What do you think the principal ought to do with such a boy?" continued the questioner.

"That's up to you," was the reply.

The boy escaped punishment.—School Journal.

Giants and Dwarfs.

In life giants are usually weakminded, as well as frail of body, and as a rule they do not live long. Dwarfs, on the other hand, are often nimble witted and stand a good chance of longevity. An Austrian empress in the seventeenth century took the whim to round up all the giants and dwarfs in her empire and turn them in together. Apprehension was expressed that the big ones would terrify the small ones, but it was the other way. The giants were compelled to ask for protection from the impish tricks of the dwarfs, and they had to be separated before peace reigned among them.—Philadelphia Telegraph.

A Logical Inference.

"No," said the business man, "I don't want a man in my employ who plays the races."

"Then you think gambling is wrong?"

"It isn't so much that, but I am convinced that a man who would make the loose, one sided contract required by a bookmaker is not competent to take care of his own interests or those of anybody else."—Washington Star.

The glory of ancestors sheds a light around posterity. It allows neither their good nor bad qualities to remain in obscurity.—Bolingbroke.

Spencer and the Great Riddle.

To every aspect of the problem of life Herbert Spencer must have given thought, but he has plainly declared that the human intellect as at present constituted can offer no solution. The greatest mind that this world has yet produced—the mind that systematized all human knowledge, that revolutionized modern science, that dissipated materialism forever, that revealed to us the ghostly unity of all existence, that re-established all ethics upon an immutable and eternal foundation—the mind that could expound with equal lucidity and by the same universal formula the history of a gnat or the history of a sun, confessed itself before the riddle of existence scarcely less helpless than the mind of a child. —Lafcadio Hearn in Atlantic.

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." J. W. McCollum & Co.

Queer Books.

Among the world's queerest books is "Pharamond; or, The History of France —A Fam'd Romance, in Twelve Parts." It was "written originally by the author of 'Cassandra and Cleopatra,'" and it was "Englished" by J. Phillips, Gent., and published in London in folio in 1677. "Pharamond" runs to 1,173 closely printed folio pages, which contain in all some 1,073,295 words. That is to say, it equals in length ten modern novels of about 100,000 words apiece. Sir Philip Sidney's "Arcadia" works out, interspersed poetry and all, at some 400,000 words, or four modern novels.

A Bad Habit.

The Heiress—Papa, I am considerably embarrassed to discover that I am engaged to marry both the duke and the count.

"How like your mother, to jump in and buy more than she wants, just because it is cheap!"—Life.

Very New.

"I thought you told me that Miss Pastelle was old."

"She is—old as the hills."

"Don't believe it. I kissed her a few minutes ago and found that the paint was still fresh." — Cleveland Leader.

It is impossible for that man to despair who remembers that his helper is omnipotent.—Jeremy Tayler.

REYNOLDS-GIDDINGS.

Marriage of Two Former Young Gainesville People in Rome, Ga.

The Rome Tribune of recent date bears information of the marriage of Miss Elizabeth Reynolds of Los Angeles, California, and Horace Giddings of Atlanta, which happy event occurred in St. Peter's Episcopal Church on the afternoon of October 14.

The contracting parties are well known here, where they spent their youth. Mr. Giddings is the son of the late Dr. and Mrs. Giddings, and for the past two or three years has held a responsible position with the Armour Packing Company. The bride is the daughter of Mr. and Mrs. Roth Reynolds, who also resided here for some time, Mr. Reynolds holding a clerical position with the United States land office.

The Tribune states that Mr. and Mrs. Giddings will make their future home in Atlanta. Their numerous friends here wish them much happiness in the married state.

Mr. Kennard's Freak.

Since mentioning in The Sun the freak in the nature of a two-bodied and five legged cow, owned by G. T. Kennard, several hundred people have gone to the home of Mr. Kennard to see this curiosity, and all have been astounded at the peculiarity of the same.

Mr. Kennard expects to take the cow to the State Fair at Tampa. It is still in his possession, and is grazing peacefully and perfectly content on his range in South Gainesville every day. Those who desire to see this freak before its departure for the Fair may call within the next week. No admission will be charged, and the public is welcomed.

A Bowling Contest.

There was an interesting bowling contest in this city Tuesday evening between teams composed of W. B. Higdon, W. H. Hertel, Harry Denton, and Dr. D. B. Morris, W. J. Denby and E. J. Sheffield. The contest was for an oyster supper, and was a spirited one, all participants being good bowlers.

The five games resulted in a victory for the team led by Mr. Higdon, the general average being 94 3-5, against 89 by the team led by Mr. Sheffield.

The contest was attended by a large number of people interested in bowling. Duckpins were used.

Some Fine Cane.

The Howard boys, about eight miles west of Gainesville, are good practical farmers, and have the most desirable location in that section, the land being of a rolling character. In one small area, however, there is a fine tract of hammock, and upon this tract they have possibly the finest cane crop in the county, the plant growing twelve to fourteen feet high. These young planters have agreed to furnish a hundred stalks of cane for exhibition in the Alachua county exhibit at the State Fair.

Attention, B. P. O. E.

The regular meeting of Gainesville Lodge No. 990, B. P. O. E., will be held in the Masonic Hall this evening, at which a full attendance is desired. Visiting brothers will receive a cordial welcome. There will be work.

PRESIDENT SPENDS DAY IN ALABAMA

Visits Several Cities and Delivers Many Speeches.

BIRMINGHAM AWAITS HIS COMING

Roosevelt Receives Royal Welcome in Alabama—Unique Entertainment for Him at Tuskegee—Leave Birmingham for Little Rock, Ark.

Montgomery, Ala., Oct. 25.—When the president left here this morning to continue his journey through the state a busy day confronted him. His program for the day included a visit to Tuskegee, the home of the famous institute for negroes, a return trip to Montgomery and a visit to Birmingham, at all of which places speeches are to be made.

The presidential train, which arrived here at midnight last night, had been ordered side-tracked in th ecountry near this city until 7 o'clock this morning, when the start was to be made for Tuskegee.

The president was enabled to obtain an uninterrupted sleep which freshened him for the work ahead. His train is scheduled to arrive at Tuskegee at half past eight o'clock. There two hours will be spent and the president will make two addresses—one in the town and the other at the Tuskegee institute, a mile and a half away.

President Booker T. Washington, of the institute, will introduce President Roosevelt. The return trip to Montgomery will be then made. The president's train is scheduled to return here at noon.

When he reaches the city the president will be escorted to the state capitol, where he will be welcomed by the mayor and governor, after which he will make an address to the people. Elaborate preparations for his entertainment have been made.

Two hours will be spent here, after which the president will continue his journey to Birmingham, which place his train is scheduled to reach at 5 o'clock this afternoon. Two hours are to be spent in that industrial centre, during which the president will make an address to the people and later visit the state fair, where another speech is to be delivered. At 6:45 o'clock this evening the president's train will leave Birmingham for Littl eRock, Arkansas.

Welcome at Tuskegee.

Tuskegee, Ala., Oct. 25.—President Roosevelt arrived in Tuskegee at 8:30 o'clock this morning, this train being on time.

The city was beautifully decorated. A number of arches, the foundations of which were made of bales of cotton, were erected and covered with bunting. The platform from which the president spoke was made from $30,000 worth of cotton in original bales. The president was met at his train by a reception committee, among whom were Mayor O. S. Lewis and Dr. John Massey, president of the Alabama Conference Female college. Escorted by a company of state militia, the president was driven to the college grounds which represented a typical southern scene. Cotton had been transplated in long rows and two old southern negroes, with cotton pickers' sacks on their shoulders, were engaged in picking cotton from the plants. Several baskets of cotton were scattered about the field.

The president was greeted at the college grounds by students of the institution and public school children. The president's address here was a short one and at its conclusion he left for the Tuskegee Normal and Industrial school.

Birmingham in Gala Attire.

Birmingham, Ala., Oct. 25.—Birmingham is in gala attire for President Roosevelt, who is expected to reach here at 4:45 o'clock this afternoon from Montgomery. When his train reaches the city limits every steam whistle in the city will blow for five minutes, while the presidential salute will be fired from the top of Red mountain to the south of the city.

A reception committee of five hundred prominent citizens will meet him at the union passenger station, where Mayor George B. Ward will make a short welcome speech on behalf of the municipality, and will present the president with a handsome badge of gold and satin commemorative of his visit. The party will then take carriages and move up Twentieth street to Capital park, the president being escorted by numerous military and civic bodies from all over north Alabama.

At the park he will be formally welcomed and introduced by General Rufus N. Rhodes, editor of the Birmingham News. Here the president will speak, after which Miss Sophia Wittichen, grand niece of Admiral Semmes, of confederate fame, will present him with a souvenir confederate badge on behalf of Camp Hardee, U. C. V.

Hurrying from Capital park to the state fair grounds, 3 miles away, the president will make a second speech, being introduced by Thomas H. Molten, president of the Birmingham Commercial club. From the fair grounds the party will return to the city and the president will leave for Little Rock, Ark.

TO BE CHANGES IN THE CABINET.

It is Rumored that Several Members Will Shortly Resign.

Chicago, Oct. 25.—A dispatch to the Tribune from Washington, D. C., says that after the return of President Roosevelt to Washington from his southern tour, there will be a renewal of rumors regarding impending changes in the cabinet, and within six months or so, after the re-opening of congress, it is more than likely that the complexion of the cabinet will be completely changed.

This does not mean that every one of the present cabinet of ministers is to go out, but there will be two or three new members and probably three radical changes in position before the close of the current fiscal year.

Secretary Shaw is to go out of the cabinet of his own notion as a preliminary to his formal entry into the presidential race. The vacancy of the head of the United States treasury department will be filled according to the present outlook by the transfer of Postmaster General Cortelyou. Attorney General Moody has been expecting to go out for some time. He remains at the head of the department of justice largely, if not entirely, then he may carry on the prosecution of the beef trust cases. His place probably will be filled by Charles J. Bonaparte, the present Secretary of the navy.

This turn will create another vacancy and the new head of the navy, according to the present slate, wil be George Von L. Meyer, the present ambassador to St. Petersburg.

CANNOT LOCATE COMPTROLLER.

The Man Who Examined Pittsburg Bank is Missing.

Pittsburg, Oct. 25.—Renewed interest is being manifested in Enterprise National bank affairs by the report that William B. Ridgely, comptroller of the currency is in this city, but all efforts to locate him have been unsuccessful.

Bank Examiner Cunningham, receiver of the Enterprise bank, remains silent regarding the bank's affairs, and emphatically denies that he has made any of the conflicting statements that have been credited to him. He reiterated that his report when finished, will be sent to Washington.

A meeting of the directors of the Standard Building and Loan associations Nos. 1 and 2, of which the late Cashier Clark was treasurer and a director, has been called for tomorrow. The directors say a hurried inspection of the books show the accounts to be satisfactory.

Suffering from Epileptic Hysteria.

Chicago, Oct. 25.—Apparently suffering from rabies which arose from a bite of a dog thirteen years ago, Amanda Jones, aged 27, was taken from her home to a hospital yesterday. The patient when 14 years old was bitten on both hands by a dog but the wounds were cauterized and no ill effects appeared until last June, when she suddenly developed all the usual symptoms of hydrophobia and became violent. The physicians are inclined to believe that the disease is a kind of epileptic hysteria, itself of rare occurrence.

COTTON CROP IS SHORT THIS YEAR

Only About Two-Thirds of the Output of Year 1904.

SHORTER THAN WAS EXPECTED

When Report Was Read on New York Cotton Exchange There Was a Flurry of Excitement, and the Staple Advanced 50 Points in Twenty Minutes.

Special to The Gainesville Sun:

Washington, Oct. 25.—The United States Government report on amount of cotton ginned of the growth of 1905, which was published Tuesday, shows 4,940,728 bales, counting round bales as half bales, as compared with 6,417,894 bales for the same period ending October 18, 1904. This is half a million short of what was expected, and when the report was read on the New York Cotton Exchange, wild excitement prevailed, and the price of January cotton advanced $2.50 per bale within twenty minutes.

Crop estimates now place the crop of 1905-06 in the neighborhood of 10,000,000 bales, against 14,000,000 bales the previous year.

ALACHUA NEWS.

Cotton Growers' Meeting—Weddings to Take Place—Other Locals.

Alachua, Oct. 25.—Invitations are out announcing the marriage of Miss Kate Dell to Mr. J. R. Jones, at the home of the bride's parents at Traxler, on Sunday, Oct. 29th, at 3:30 p. m. This couple are members of two of the best families in the county, and are receiving the congratulations of their many friends.

Mr. G. J. Ellis and Miss Lela Moore were united in marriage at this place Sunday morning at 10 o'clock, Rev. B. F. Mason officiating. Quite a number of friends and acquaintances were present at the marriage and extended best wishes for a long and happy life.

SOCIETY LEADER IS ARRESTED FOR THEFT

Police Unravel a Long Standing and Baffling Mystery.

ACCUSED MAKES A CONFESSION

While He Had Been Posing as a Society Man and Was Holding a Lucrative Position, He Would Enter Residences at Night and Rob Them.

Middletown, N. Y., Oct. 25.—By the confession of Charles Boos, until a few days ago, the general superintendent of the Wallkill Terminal lines, in Orange county a spectacular police mystery has been solved.

According to the police he admitted to them that he had robbed one of the largest department stores in the city, besides several residences in the last few months.

Roos jokingly reminded the police that he himself had raised the hue and cry one night a few weeks ago when a burglar was chased out of the residence of F. P. S. Crane, a wealthy man. He said the police were close on him before he got out of the house and that he ran ahead of them shouting: "Stop thief!" "Catch that man!" This ruse worked so well that Roos resorted to it a few nights later when he had forced his way into the home of J. L. Pendleton and from which he was frightened by an alarm.

Boos is regarded as a modern social highwayman. He drew a large salary as superintendent of the big transit corporation and lived in good style on one of the principal streets of the city. He was popular in society and dressed in the latest fashion. He was apparently one of the busiest men in the town and he was seemingly an exemplary man of business.

A search of Boos' fine apartment revealed valuable plunder for which the police have long been looking and which, it is alleged, had been taken from prominent apartment stores and private residences. Confronted with the goods, Roos, it is said, confessed.

Woman Arrested for Abducting Girl.

New York, Oct. 25.—In response to an appeal made by William H. Ainsted, a wealthy publisher of this city for assistance in recovering his 18-year-old daughter, Mabelle, officers yesterday searched the home of Mrs. Jessie K. Graeffe. Failing to find the girl, they arrested Mrs. Graeffe on a technical charge. Mrs. Graeffe is a daughter of the late United States Judge McIntosh, of Georgia. Mabelle has been absent from her father's home at White Plains since Oct. 13. Ainsted alleges that Mrs. Graeffe has a powerful influence, suggestive of hypnotism, over his daughter. Both Mrs. Graeffe and Mr. Ainsted say that much light would be thrown on the case today when Mrs. Graeffe will appear in court for examination.

Cotton Makes Good Advance.

New Orleans, Oct. 25.—Liverpool closing at 44 American points higher on near positions and the report of the National Ginners' association coming out to the effect that there had been ginned up to the 18th of this month 4,342,000 bales of cotton compared with 6,418,000 bales last year, caused the active future positions in the cotton market to open 32 to 34 points higher. The National Ginners' association estimates that 45 per cent of the crop has been ginned up to the 18th and as this means a total crop for the season of only 9,658,000 bales, the shorts were given the worst scare of the season. The rush they made to cover sent the prices up nearly two dollars per bale in the early trading.

Evans May Run for Governor.

Chattanooga, Tenn., Oct. 25.—The News today says that information of a most reliable character has been obtained to the effect that Hon. Clay Evans, ex-commissioner of pensions and ex-consul general to England, is in communication with leaders of the Republican party throughout the state and that he will announce his candidacy for governor. Mr. Evans' voting home and business interests are in this city.

MR. STUCKEY ON RAILROAD MATTERS

First Vice-President G. & G. Has Confidence in Extension.

WILL OPEN A FINE COUNTRY

The Extension Means a Big Thing in the Development of That Section of Florida, Where the Land is Fertile and Timber Grows Abundantly.

Among the prominent visitors to this city within the past day or two was A. P. Stuckey of Ocala, first vice-president of the Gainesville & Gulf Railway, who came to consult with other officers in railroad matters—at least matters concerning the Gainesville & Gulf.

It will be remembered that several weeks ago a survey of the territory from Fairfield to points south to Tampa was ordered by the new management of the Gainesville & Gulf, with a view to pushing the road as rapidly as possible to its southern terminus. It was estimated that this survey would be completed the entire distance in twenty days, but there seems to have been some hitch or misunderstanding, as the surveying corps has just reached Ehren, a considerable distance from the objective point. They are expected, however, to complete this survey after a while.

"We still have confidence in the future of the Gainesville & Gulf and the territory which the extension embraces," remarked Mr. Stuckey, who was among the leading promoters of the project. "We know that the extension of the Gainesville & Gulf will open one of the finest and most fertile sections in Florida, to say nothing of the wonderful development in naval stores and lumber, and we are perfectly satisfied with the prospects."

Thirty miles of sixty-pound steel rail are expected to arrive at any time. On account of the delay in pushing the survey the work of cutting right-of-way has not yet begun, but a force of workmen will be employed in a short time. By the time this iron has been received it is expected that the roadbed will be in position for the laying track.

THE ODD FELLOWS' HOME.

The National Odd Fellows' Sanitarium to Open November 1st.

Arrangements are being perfected for the opening of the National Odd Fellows' Sanitarium of Florida, in this city, on November 1st, for the reception of the members of this noble order from all portions of the United States and Canada, who come here in search for the health for which Florida, and especially the city of Gainesville, is noted.

To those who are not familiar with this noble institution and its object, we will state that it is a State institution where the members of the order, rich or poor, can come and have a comfortable home at as moderate a price as possible.

Mrs. F. B. Hoover of Illinois, a caterer of ample experience, has been secured and people from the North will find the culinary department a feature to their liking this winter.

The hospital department will be in charge of Miss May Lee, a trained nurse of Chattanooga, Tenn., and this branch will be maintained up to its former high standard.

There is no finer or more convenient place for the invalid to recuperate at than this beautiful spot, and with the health of Gainesville and the climate of Florida, it is a haven for those who come South to spend the winter.

If the Baby is Cutting Teeth

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

HAD TO HIDE IT

A mother wrote us recently that she had to keep Scott's Emulsion under lock and key—her children used to drink it whenever her back was turned. Strange that children should like something that is so good for them. It's usually the other way. Scott's Emulsion makes children comfortable, makes them fat and rosy-cheeked. Perhaps that's why they like it so much—they know it makes them feel good.

IN THE MAYOR'S COURT.

Four Offenders Stood Up for Municipal Prescription.

In the words of the typical Floridian, the mayor's court recently was "tolerably interesting," there being four victims before the municipal tribunal.

If there is any one thing in the world more tempting to the average darkey than a yellow-legged chicken, it is the irresistible sugar cane. These people are as happy during the cane season as a fly in a sugar barrel, if they have the price of imbibing in that delicious pastime of chewing cane.

James Helton had a stalk of cane—the fine, sweet, juicy kind. He was seated on the top of an empty barrel enjoying his possession, when Thos. Green, with the complexion of a late fall pumpkin, approached him.

"Gimme piece er dat cane," demanded Green.

"I ain't gwine ter gib yer no cane," responded Helton.

"Gimme de jints," appealed the pumpkin-colored aggressor.

"Dere ain't gwine ter be no jints," replied the man on the barrel, "an' if yer fool wid me I'll gib yerde butt ober de hed."

"Yer can't do it, yer pesky, snuff-culled rascal," replied Green. But at the same time Helton did attempt to do it, so it is said, with the result that he was arrested for fighting, and was fined $2.50 and costs. For "butting in" Green had to pay the freight in the sum of $1 and costs.

James McIntyre, drunk, $2.50 and costs, and Ed Sparks, obstructing the streets with a vehicle, let off with the costs, were the other cases disposed of.

ARCHER ANELECTS.

A Bunch of Newsy Paragraphs Regarding People and Things.

Archer, Oct. 24.—Hodgson & Wood have built quite an addition to their store-room. Miss McCredie of Micanopy has accepted a position with them.

Lumber is on the ground for an addition to the warehouse of C. W. Bauknight.

Major Samuel DePass left last week for Dallas, Texas, and Memphis, Tenn., his former homes.

Miss Ida Chamblin returned home on Friday, after spending the summer in Atlanta, Ga., and Woodruff, N. C.

A. J. Miller has sold his hotel privilege near the depot to C. O. Collins, who will in future run the house. Mr. Miller has left for his old home in Georgia.

Edd Stewart and mother, Mrs. J. T. Stewart, delighted their many friends by arriving here last Sunday. Mrs. Stewart is stopping at the Magnolia Hotel, while Edd has engaged in business at Newberry.

Jas. Duren, who was taken sick in Jacksonville while attending school, and was brought home by his father, is well again.

Dr. B. F. Julian, who has been quite sick, is better.

Dr. Davis is here doing some dental work.

Notice of the death of James Scotton was received in Archer this week. It occurred at his home in Kokomo, Ind. Mr. and Mrs. Scotton were regular winter visiors here, having a pretty home.

Mrs. L. T. Stewart, sister of G. L. Taylor and Mrs. J. E. Wells, left on Wednesday for California to look after her mining interests.

Archer was represented in Jacksonville on Saturday to the President.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured me sound and well. It is a wonderful medicine and I recommend it to suffering humanity." Sold by W. M. Johnson.

Fair! Fair!! Fair!!!

Fair notice is hereby given to exhibitors. The train for cows and horses will leave Gainesville Saturday, November 11th. Hogs, sheep, goats and calves (in crates only) can be sent from the nearest station to the exhibitor. Turkeys, geese, ducks and chickens, and all animals not weighing when crated over 100 pounds, can be sent by express, and must be shipped not later than Monday, November 13th. Cane, potted plants and perishable things must also be sent not later than Monday, November 13th. Every District Commissioner has been sent a supply of shipping tags, and no other can be used according to directions of the President of the Fair Association. On boxes, barrels and crates use two tags, one with black print up, and one with red print up. Tack on securely. If you wish to sell your exhibits in Tampa, state your price in the small square on all red letter side of tags, and if I can find a purchaser I will help you to sell.

If you want more tags write me at once. Cut this out and refer to it often.

Yours truly,
JOHN W. TENCH, Mgr. Etc.

OPERATIONS AVOIDED

Two Grateful Letters from Women Who Avoided Serious Operations.—Many Women Suffering from Like Conditions Will Be Interested.

When a physician tells a woman, suffering from ovarian or womb trouble, that an operation is necessary it, of course, frightens her.

The very thought of the operating table and the knife strikes terror to her heart. As one woman expressed it, when told by her physician that she must undergo an operation, she felt that her death knell had sounded.

Our hospitals are full of women who are there for ovarian or womb operations!

It is quite true that these troubles may reach a stage where an operation is the only resource, but such cases are much rarer than is generally supposed, because a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after the doctors had said an operation must be performed. In fact, up to the point where the knife must be used to secure instant relief, this medicine is certain to help.

The strongest and most grateful statements possible to make come from women who, [illegible]ng Lydia E. Pinkham's Vegetable Compound, have escaped serious operations.

Margrite Ryan, Treasurer of St. Andrew's Society, Indianapolis, Ind., writes of her cure as follows:

Dear Mrs. Pinkham:—

"I cannot find words to express my thanks for the good Lydia E. Pinkham's Vegetable Compound did me. The doctor said I could not get well unless I had an operation for ovarian and female troubles. I knew I could not stand the strain of an operation and made up my mind I would be an invalid for life. Hearing how Lydia E. Pinkham's Vegetable Compound had saved other women from serious operations I decided to try it, and in less than four months I was entirely cured; and words fail to express my thankfulness."

Miss Margret Merkley of 275 2d Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham:—

"Loss of strength, extreme nervousness, severe shooting pains through the pelvic organs, cramps, bearing down pains, and an irritable disposition compelled me to seek medical advice. The doctor, after making an examination, said that I had ovarian trouble and ulceration, and advised an operation as my only hope. To this I strongly objected—and I decided as a last resort to try Lydia E. Pinkham's Vegetable Compound.

"To my surprise the ulceration healed, all the bad symptoms disappeared, and I am once more strong, vigorous and well; and I cannot express my thanks for what it has done for me."

Ovarian and womb troubles are steadily on the increase among women—and before submitting to an operation every woman should try Lydia E. Pinkham's Vegetable Compound, and write Mrs. Pinkham at Lynn, Mass., for advice.

For thirty years Lydia E. Pinkham's Vegetable Compound has been curing the worst forms of female complaints, all ovarian troubles, inflammation, ulceration, falling and displacement of the womb, leucorrhœa, irregularities, indigestion and nervous prostration. Any woman who could read the many grateful letters on file in Mrs. Pinkham's office would be convinced of the efficiency of her advice and Lydia E. Pinkham's Vegetable Compound.

According to reports from Tampa it will be a hard matter to tell who fired the first shot in the recent union fight, when Charley Potter was killed and Bob Hardaker was wounded.

An effort will be made to organize a Southern Municipal League at Tampa at some time during the State Fair, the membership to consist of the mayors and municipal officers of Southern cities.

Jesse Knight, aged 88 years, a resident of Sarasota, indulges in a swim in the bay frequently, and "stands 40 foot without a knot or a limb." He is a living example of the health of that section.

E. M. Overstreet & Company have sold their entire turpentine plant at Seneca, Lake county, including mules and horses, commissary store, etc., and 13,000 acres of timber lands, to a Mr. Williams and his partners, prominent lumbermen of Dawson, Ga. The consideration was about $70,000.

Rosetta Smith, the colored woman who was tried in Judge Bell's court Thursday for chicken stealing, was again tried Friday, Thursday's hearing having proved a mistrial. She was found guilty and sentenced to pay $100 and costs or serve six months in the county jail —Ocala Star.

Whitney's 400-pound bear escaped from the alligator farm yesterday and is now roaming the woods. He put two hounds that were placed on his track to rout and mauled them severely. The bear's name is Teddy, and it is supposed that when he heard that Teddy Roosevelt, the famous and mighty bear hunter, was in town, he bolted for the woods and sought a hiding place. This is about the only plausible explanation that can be offered in justification of the actions of this heretofore well-behaved bruin. No doubt but what he will return to camp on learning that the President has gone. Anyhow, Sheriff Perry, with a pack of hounds, will attempt to capture the bear and bring him back if he cannot be persuaded to return peacefully.—St. Augustine Record, 23rd.

Astonishing Incident.

It was, to all her friends, an astonishing incident that Mrs. I. B. Hunt of Lime Ridge, Wis., was cured of her dreadful sickness. "Doctors," she writes, "had given me up; friends were ready to bid me the last farewell; clouds of despair darkened my horizon, and I was a wreck on the shores of despondency, when I began to take Electric Bitters for my frightful stomach and liver complaint. To the astonishment of all, I was benefited at once and am now completely and miraculously restored to health. At all drug stores; price 50c; guaranteed.

Automobile Cost Her Life.

San Francisco, Oct. 24.—Mrs. Theodore Planz, wife of a merchant tailor, while riding in an automobile was killed. Mrs. Planz was guiding the machine, and while speeding along Van Ness avenue, made a quick turn to avoid running down a pedestrian The automobile was upset and the party thrown out. Mrs. Planz met death almost instantly and her mother-in-law, Mrs. Henry Planz, was badly hurt. Theodore Planz, the husband of the woman who was killed, and his two nieces escaped injury.

NEW ARRIVALS.

Gainesville's Advantages Are Recognized and Appreciated Everywhere.

Gainesville is growing, and it is growing substantially. The educational and other advantages offered by this city are tempting to people from every section of the United States, especially those who have children, for no city or county in the State can offer better educational inducements than Gainesville and Alachua county.

Among the latest arrivals who have come to make their home here are Mr. and Mrs. R. Dale Gilmore and two daughters of Philadelphia, who have rented the home, 705 North University street, until they can secure a house of their own.

Mr. Gilmore, who is an excellent gentleman with a fine family, was greatly impressed with Gainesville on account of the educational and religious advantages here, and, inasmuch as he desired to bring his family to the South, he declares he could not find a more enlightened and refined place than a city that boasted of good schools and good churches.

The people of Gainesville will welcome this family, and trust they will be well pleased.

John Weer, an elderly gentleman of Chicago, is also a late arrival. Mr. Weer spent last winter here and was well pleased. The fact that he returned as early as October, when he did not come until January of last winter, is evidence that he is pleased. "I think Gainesville is the best town of its size, or any other size, in the United States," remarked Mr. Weer, good-naturedly. "If I was not impressed with the city I would not be here. The climate is fine, the people are all that could be desired, and in all Gainesville is the ideal place."

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." PROCEEDINGS IN BANKRUPTCY

Many Clients Testified Through Attorneys of Indebtedness.

The proceedings in bankruptcy against the Espanola Lumber Company do not yet seem to have been settled, as another hearing was given before Referee Palmer Monday, when Dr. Crill of Palatka, the purchaser of the defunct concern, and many attorneys, were present.

Dr. Crill, as a matter of course, was here for the purpose of adjusting matters as amicably as possible, while the attorneys were representing various creditors, some of whom had been "gouged" by the Espanola Lumber Company to the extent of nearly $3,000.

The meeting was held in the office of Referee Palmer, and lasted nearly all the afternoon.

The plant of the Espanola Lumber Company is located near Rochelle, and is one of the finest in this section, having a cutting capacity of nearly 50,000 feet per day. It was originally erected by J. L. Kelley & Sons, who sold to the Kelley-McDonald Company, this company disposing of its interests later to a Mr. Patterson.

MR. STUCKEY ON RAILROAD MATTERS

First Vice-President G. & G. Has Confidence in Extension.

WILL OPEN A FINE COUNTRY

The Extension Means a Big Thing in the Development of That Section of Florida, Where the Land is Fertile and Timber Grows Abundantly.

Among the prominent visitors to this city within the past day or two was A. P. Stuckey of Ocala, first vice-president of the Gainesville & Gulf Railway, who came to consult with other officers in railroad matters—at least matters concerning the Gainesville & Gulf.

It will be remembered that several weeks ago a survey of the territory from Fairfield to points south to Tampa was ordered by the new management of the Gainesville & Gulf, with a view to pushing the road as rapidly as possible to its southern terminus. It was estimated that this survey would be completed the entire distance in twenty days, but there seems to have been some hitch or misunderstanding, as the surveying corps has just reached Ehren, a considerable distance from the objective point. They are expected, however, to complete this survey after a while.

"We still have confidence in the future of the Gainesville & Gulf and the territory which the extension embraces," remarked Mr. Stuckey, who was among the leading promoters of the project. "We know that the extension of the Gainesville & Gulf will open one of the finest and most fertile sections in Florida, to say nothing of the wonderful development in naval stores and lumber, and we are perfectly satisfied with the prospects."

Thirty miles of sixty-pound steel rail are expected to arrive at any time. On account of the delay in pushing the survey the work of cutting right-of-way has not yet begun, but a force of workmen will be employed in a short time. By the time this iron has been received it is expected that the roadbed will be in position for the laying track.

THE ODD FELLOWS' HOME.

The National Odd Fellows' Sanitarium to Open November 1st.

Arrangements are being perfected for the opening of the National Odd Fellows' Sanitarium of Florida, in this city, on November 1st, for the reception of the members of this noble order from all portions of the United States and Canada, who come here in search for the health for which Florida, and especially the city of Gainesville, is noted.

To those who are not familiar with this noble institution and its object, we will state that it is a State institution where the members of the order, rich or poor, can come and have a comfortable home at as moderate a price as possible.

Mrs. F. B. Hoover of Illinois, a caterer of ample experience, has been secured and people from the North will find the culinary department a feature to their liking this winter.

The hospital department will be in charge of Miss May Lee, a trained nurse of Chattanooga, Tenn., and this branch will be maintained up to its former high standard.

There is no finer or more convenient place for the invalid to recuperate at than this beautiful spot, and with the health of Gainesville and the climate of Florida, it is a haven for those who come South to spend the winter.

HAD TO HIDE IT

A mother wrote us recently that she had to keep Scott's Emulsion under lock and key—her children used to drink it whenever her back was turned. Strange that children should like something that is so good for them. It's usually the other way. Scott's Emulsion makes children comfortable, makes them fat and rosy-cheeked. Perhaps that's why they like it so much—they know it makes them feel good.

IN THE MAYOR'S COURT.

Four Offenders Stood Up for Municipal Prescription.

In the words of the typical Floridian, the mayor's court recently was "tolerably interesting," there being four victims before the municipal tribunal.

If there is any one thing in the world more tempting to the average darkey than a yellow-legged chicken, it is the irresistible sugar cane. These people are as happy during the cane season as a fly in a sugar barrel, if they have the price of imbibing in that delicious pastime of chewing cane.

James Helton had a stalk of cane—the fine, sweet, juicy kind. He was seated on the top of an empty barrel enjoying his possession, when Thos. Green, with the complexion of a late fall pumpkin, approached him.

"Gimme piece er dat cane," demanded Green.

"I ain't gwine ter gib yer no cane," responded Helton.

"Gimme de jints," appealed the pumpkin-colored aggressor.

"Dere ain't gwine ter be no jints," replied the man on the barrel, "an' if yer fool wid me I'll gib yer de butt ober de hed."

"Yer can't do it, yer pesky, snuff-culled rascal," replied Green. But at the same time Helton did attempt to do it, so it is said, with the result that he was arrested for fighting, and was fined $2.50 and costs. For "butting in" Green had to pay the freight in the sum of $1 and costs.

James McIntyre, drunk, $2.50 and costs, and Ed Sparks, obstructing the streets with a vehicle, let off with the costs, were the other cases disposed of.

Every District Commissioner has been sent a supply of shipping tags, and no other can be used according to directions of the President of the Fair Association. On boxes, barrels and crates use two tags, one with black print up, and one with red print up. Tack on securely. If you wish to sell your exhibits in Tampa, state your price in the small square on all red letter side of tags, and if I can find a purchaser I will help you to sell.

If you want more tags write me at once. Cut this out and refer to it often.

Yours truly,

OPERATIONS AVOIDED

Two Grateful Letters from Women Who Avoided Serious Operations.—Many Women Suffering from Like Conditions Will Be Interested.

When a physician tells a woman, suffering from ovarian or womb trouble, that an operation is necessary it, of course, frightens her.

The very thought of the operating table and the knife strikes terror to her heart. As one woman expressed it, when told by her physician that she must undergo an operation, she felt that her death knell had sounded.

Our hospitals are full of women who are there for ovarian or womb operations!

It is quite true that these troubles may reach a stage where an operation is the only resource, but such cases are much rarer than is generally supposed, because a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after the doctors had said an operation must be performed. In fact, up to the point where the knife must be used to secure instant relief, this medicine is certain to help.

The strongest and most grateful statements possible to make come from women who, [illegible] Lydia E. Pinkham's Vegetable Compound, have escaped serious operations.

Margrite Ryan, Treasurer of St. Andrew's Society, Indianapolis, Ind., writes of her cure as follows:

Dear Mrs. Pinkham:—

"I cannot find words to express my thanks for the good Lydia E. Pinkham's Vegetable Compound did me. The doctor said I could not get well unless I had an operation for ovarian and female troubles. I knew I could not stand the strain of an operation and made up my mind I would be an invalid for life. Hearing how Lydia E. Pinkham's Vegetable Compound had saved other women from serious operations I decided to try it, and in less than four months I was entirely cured; and words fail to express my thankfulness."

Miss Margret Merkley of 275 3d Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham:—

"Loss of strength, extreme nervousness, severe shooting pains through the pelvic organs, cramps, bearing down pains, and an irritable disposition compelled me to seek medical advice. The doctor, after making an examination, said that I had ovarian trouble and ulceration, and advised an operation as my only hope. To this I strongly objected—and I decided as a last resort to try Lydia E. Pinkham's Vegetable Compound.

"To my surprise the ulceration healed, all the bad symptoms disappeared, and I am once more strong, vigorous and well; and I cannot express my thanks for what it has done for me."

Ovarian and womb troubles are steadily on the increase among women—and before submitting to an operation every woman should try Lydia E. Pinkham's Vegetable Compound, and write Mrs. Pinkham at Lynn, Mass. for advice.

For thirty years Lydia E. Pinkham's Vegetable Compound has been curing the worst forms of female complaints, all ovarian troubles, inflammation, ulceration, falling and displacement of the womb, leucorrhœa, irregularities, indigestion and nervous prostration. Any woman who could read the many grateful letters on file in Mrs. Pinkham's office would be convinced of the efficiency of her advice and Lydia E. Pinkham's Vegetable Compound.

THE YELLOW FEVER.

Both Pensacola and New Orleans Have Bright Outlook.

Pensacola, Oct. 24.—All the patients today are in good condition and there were only two new cases and one death up to noon. Yesterday there were seven new cases and one death.

At New Orleans.

New Orleans, Oct. 24.—Only four new cases yesterday and no deaths. Only one new case was reported up to noon today.

Mothers

Who would keep their children in good health should watch for the first symptoms of worms, and remove them with White's Cream Vermifuge. It is the children's best tonic. It gets digestion at work so that their food does them good, and they grow up healthy and strong. Sold by W. M. Johnson.

Citra people claim they have a good opening for a livery stable.

David L. Palmer of Madison has had patented a combined stalk puller and cutter.

Thanksgiving Day, November 30th, will be Brown Day at the State Fair at Tampa.

After January 2, 1906, the carpenters of West Palm Beach will demand an 8-hour day.

The Presbyterian church at Eustis has been greatly improved in the interior appearance.

The property owners of Live Oak must build sidewalks within 30 days or the city will do it for them.

The depot at Dunnellon is in such a delapidated condition that it is stated that the bats won't live in it.

The East Coast Cattle Company will have headquarters at Fort Pierce, and also have a capital of $50,000.

Six milk peddlers were arrested in Tampa last Friday for not complying with the milch ordinance and fined $10 each.

H. Decker & Bro. of Clermont will open up a dry goods and gents' furnishing store at Eustis, making that city their home.

Mrs. L. B. Mathes, teacher of the Turkey Creek school, has resigned. She had too much trouble with the school board.

The "big girls" of the public school at Fernandina have organized a foot-ball team and there will no doubt be some fierce kicking.

A slight blaze in the kitchen roof of the University buildings at Lake City, Sunday, caused a lot of excitement but not much damage.

John Smith, who claims Jacksonville as his home, is under arrest in Atlanta for robbing a man of $45. John Smith used to live in Cincinnati.

The Seventh Day Adventists have just closed an interesting conference meeting at Plant City. The church is increasing in strength in the State.

M. A Brown still holds the office of sheriff of Duval county, and quo warranto proceedings are said to be the only method of contesting the law.

Francisco Martinez, a youth of 16 years, is in jail at Tampa, charged with attempted robbery. He also fired two shots at Mrs. Anna Grace at Palmetto Beach.

When down with the wells at West Palm Beach 75 feet, perfect conch shells were discovered, which shows that part of Florida to have been covered by water years ago.

According to reports from Tampa it will be a hard matter to tell who fired the first shot in the recent union fight, when Charley Potter was killed and Bob Hardaker was wounded.

An effort will be made to organize a Southern Municipal League at Tampa at some time during the State Fair, the membership to consist of the mayors and municipal officers of Southern cities.

Jesse Knight, aged 88 years, a resident of Sarasota, indulges in a swim in the bay frequently, and "stands 40 foot without a knot or a limb." He is a living example of the health of that section.

E. M. Overstreet & Company have sold their entire turpentine plant at Seneca, Lake county, including mules and horses, commissary store, etc., and 13,000 acres of timber lands, to a Mr. Williams and his partners, prominent lumbermen of Dawson, Ga. The consideration was about $70,000.

Rosetta Smith, the colored woman who was tried in Judge Bell's court Thursday for chicken stealing, was again tried Friday, Thursday's hearing having proved a mistrial. She was found guilty and sentenced to pay $100 and costs or serve six months in the county jail —Ocala Star.

Whitney's 400-pound bear escaped from the alligator farm yesterday and is now roaming the woods. He put two hounds that were placed on his track to rout and mauled them severely. The bear's name is Teddy, and it is supposed that when he heard that Teddy Roosevelt, the famous and mighty bear hunter, was in town, he bolted for the woods and sought a hiding place. This is about the only plausible explanation that can be offered in justification of the actions of this heretofore well-behaved bruin. No doubt but what he will return to camp on learning that the President has gone. Anyhow, Sheriff Perry, with a pack of hounds, will attempt to capture the bear and bring him back if he cannot be persuaded to return peacefully.—St. Augustine Record, 23rd.

Astonishing Incident.

It was, to all her friends, an astonishing incident that Mrs. I. B. Hunt of Lime Ridge, Wis., was cured of her dreadful sickness. "Doctors," she writes, "had given me up; friends were ready to bid me the last farewell; clouds of despair darkened my horizon, and I was a wreck on the shores of despondency, when I began to take Electric Bitters for my frightful stomach and liver complaint. To the astonishment of all, I was benefited at once and am now completely and miraculously restored to health. At all drug stores; price 50c; guaranteed.

Automobile Cost Her Life.

San Francisco, Oct. 24.—Mrs. Theodore Planz, wife of a merchant tailor, while riding in an automobile was killed. Mrs. Planz was guiding the machine, and while speeding along Van Ness avenue, made a quick turn to avoid running down a pedestrian The automobile was upset and the party thrown out. Mrs. Planz met death almost instantly and her mother-in-law, Mrs. Henry Planz, was badly hurt. Theodore Planz, the husband of the woman who was killed, and his two nieces escaped injury.

NEW ARRIVALS.

Gainesville's Advantages Are Recognized and Appreciated Everywhere.

Gainesville is growing, and it is growing substantially. The educational and other advantages offered by this city are tempting to people from every section of the United States, especially those who have children, for no city or county in the State can offer better educational inducements than Gainesville and Alachua county.

Among the latest arrivals who have come to make their home here are Mr. and Mrs. R. Dale Gilmore and two daughters of Philadelphia, who have rented the home, 705 North University street, until they can secure a house of their own.

Mr. Gilmore, who is an excellent gentleman with a fine family, was greatly impressed with Gainesville on account of the educational and religious advantages here, and, inasmuch as he desired to bring his family to the South, he declares he could not find a more enlightened and refined place than a city that boasted of good schools and good churches.

The people of Gainesville will welcome this family, and trust they will be well pleased.

John Weer, an elderly gentleman of Chicago, is also a late arrival. Mr. Weer spent last winter here and was well pleased. The fact that he returned as early as October, when he did not come until January of last winter, is evidence that he is pleased. "I think Gainesville is the best town of its size, or any other size, in the United States," remarked Mr. Weer, good-naturedly. "If I was not impressed with the city I would not be here. The climate is fine, the people are all that could be desired, and in all Gainesville is the ideal place."

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." PROCEEDINGS IN BANKRUPTCY

Many Clients Testified Through Attorneys of Indebtedness.

The proceedings in bankruptcy against the Espanola Lumber Company do not yet seem to have been settled, as another hearing was given before Referee Palmer Monday, when Dr. Crill of Palatka, the purchaser of the defunct concern, and many attorneys, were present.

Dr. Crill, as a matter of course, was here for the purpose of adjusting matters as amicably as possible, while the attorneys were representing various creditors, some of whom had been "gouged" by the Espanola Lumber Company to the extent of nearly $3,000.

The meeting was held in the office of Referee Palmer, and lasted nearly all the afternoon.

The plant of the Espanola Lumber Company is located near Rochelle, and is one of the finest in this section, having a cutting capacity of nearly 50,000 feet per day. It was originally erected by J. L. Kelley & Sons, who sold to the Kelley-McDonald Company, this company disposing of its interests later to a Mr. Patterson.

The angel question is troubling many people just at present. But as they don't generally appear until the last act, we will have plenty of time to "make up."

Some people are afraid that a newspaper will say something that will offend some one, yet they are always kicking because the press never dares to express itself.

Pius X has little use for soldiery. He will shortly, it is said, disband the vatican guards. This example may have some effect on the real military systems of the world, since the papacy has clung persistently for many ages to a show of armed force, and has thus furnished an excuse to secular powers.

Cunliffe, the substitute cashier in the Pittsburg office of the Adams Express Co. who stole $101,000 of the company's money, said when arrested: "What can you expect of a married man handling hundreds of thousands of dollars on a salary of $65 a month? Once when I had $250,000 in cash in my possession, I was sorely tempted to take it." It is quite certain he would have stolen the money if he had been paid twice or three times as much salary, as an honest man would not think of stealing, no matter if he was not paid for his work. However, men in positions of trust ought to be paid decent salaries.

EDUCATIONAL ASSOCIATION.

Every teacher in Florida will be interested in the following announcement of the Southern Educational Association:

To the Teachers and School Officers of Florida:

It gives me pleasure to announce that the next meeting of the Southern Educational Association will be held jointly with the Association of Southern Colleges in Nashville, Tenn., November 22-25, 1905.

On account of the meeting being a joint one, the program will be doubly interesting, and those of you who had the pleasure of meeting Dr. Charles D. McIver at Jacksonville last winter know we have an able presiding officer.

The local committees at Nashville are making elaborate preparations for entertaining the associations. Hotel rates will be reasonable, and hotel headquarters and minor details will be published later.

All railroad companies on November 20th and 21st will sell round-trip tickets for one first-class fare, plus 25 cents, from all points to Nashville, Tenn. Fare for round-trip from Jacksonville will be $16 25.

FATTENING HOGS.

It is about the time when farmers will begin to fatten their hogs, so as to convert them into pork before Christmas, as well as convert their corn into a higher-priced product, says The DeFuniak Stockman. But it has been demonstrated at the experimental stations that the animals require much more mineral matter in their food than is usually provided for them, for it is well known that it is from the mineral elements that the bones are produced, and when the bone-producing elements are lacking the animals cannot thrive. This was demonstrated by feeding wood ashes or bonemeal added in small quantities to the grain, with the result that a smaller quantity of grain is required to produce the same weight as from grain alone, thus showing that grain does not contain enough bone-producing matter to promote growth of the animal if confined or restricted, so long as one element in its food is insufficiently provided. Three lots of hogs were fed by Professor Henry to determine the effects of mineral matter in comparison with corn only, one lot receiving nothing but corn, another lot receiving wood ashes with corn, and another lot bonemeal with the corn. For every 100 pounds live weight gained the pigs consumed 629 pounds of corn alone. Where ashes were added 491 pounds of corn produced 100 pounds of live weight, and with bonemeal and corn only 487 pounds of corn were required to produce 100 pounds live weight gained in the pigs. These facts are conclusive that bonemeal or ashes given with corn is more economical feeding than when corn is used exclusively, as well as protecting against disease.

THE USE OF WATER POWER TO DEVELOP ELECTRICITY.

The locality that is so situated that water power can be used to develop electric power is indeed favored. Where water is used the best results are obtained and in those sections of the country the power of electricity is furnished cheaper, and a much more reliable result is obtained. But the destruction of forests has a strong tendency to dry up the streams and ruin the water power.

The slaughter of the forests that act as conservators to the water supply injure the ideal conditions that help to promote electric power, and the question of the hour is in regard to forest protection. While the destruction of the fine timber lands and the manufacture of lumber may denote progress and industry, it also has a tendency to destroy the forces that supply the machinery that furnishes the more convenient electrical power. Rivers are being dried up for lack of water from the creeks that are destroyed, and the resort to coal and wood for fuel to promote electrical plants will soon cause the business world to look elsewhere for something to turn the wheels of industry.

ABOUT THE BUCKMAN BILL.

The St. Augustine Record, in publishing the letter of Hon. N. P. Bryan, chairman of the Board of Educational Control of the State, precedes the communication with the following sensible editorial comment:

"The Miami Record recently published something about the Buckman school bill and predicted that it would be repealed by the next Legislature, whereupon The Jacksonville Metropolis took up the cry and republished the Miami 'dream,' together with the statement that there will be strong objections raised to an appropriation for the new University of Florida.

"This matter of securing the right system of education in the State of Florida is actually the most important of the present day. Drainage schemes and whatever else may be before the public, are overshadowed when the education of the youth of the State is up for consideration. It is time that some of the State papers stop pandering to those who are ever on the lookout for some excuse to 'kick'—there is no better way to put it—and unite in furthering a system that has been adopted by the Legislature as being the very best for the State.

"It was not to be expected that such misrepresentations as those attempted should be allowed to go unchallenged by the Board of Control. Chairman N. P. Bryan of Jacksonville has issued a statement that should be read by every elector so that a correct understanding may be had of the aims and laudable ambition of the Board of Control—an ambition to place Florida's educational system on a strong and lasting basis. The Board of Control has evidently been able to look well into the future. The members have not been confined to a circle the circumference of which does not go beyond the next election day. What they have done, what they are doing, and what they hope to do is all based on an idea of permanency, and it is therefore a shame for any paper to try to make such an important matter as the education of the young generation the plaything of would-be political meddlers."

ADVISED NEGROES.

In his address to the negroes at Jacksonville, President Roosevelt told them many wholesome truths. While they have heard substantially the same thing from the people of the South, it was very opportune for the President to repeat it. In his address he said:

"Develop yourselves. Do your level best to develop in addition to good teachers, and preachers who shall preach to colored men, as preachers should preach to white men, but by their fruits shall ye know them, and the truly religious man is the man, decent and clean in his private life, orderly, lawabiding.

"I say all honor to teacher, all honor to preachers, but it is almost impossible that the bulk of any people can be teachers or preachers. The bulk have got to be men who follow trades and mechanical pursuits, who are first-class tradesmen and carpenters and who excel in any of these respects, and every man who makes that kind of good farmer or thrifty, progressive, saving mechanic."

FRUIT AND FOWLS.

Great interest is being taken throughout the State in the movement to organize during the Fair at Tampa the Florida Citrus Fruit Growers' Association and the Poultry Breeders' Association, calls for which have been issued by President T. J. L. Brown of the State Fair Association. The poultry breeders meet in Tampa Tuesday, Nov. 21, while the citrus fruit growers meet the following day. A cordial invitation is extended every citrus fruit grower and poultry breeder in the State to attend these meetings.

A JUDGE'S WIFE

CURED OF PELVIC CATARRH

MRS. MINNIE E. McALLISTER.

She Suffered For Years and Doctors Failed to Give Relief —Cured by Pe-ru-na.

MRS. MINNIE E. McALLISTER, wife of Judge McAllister of Minneapolis, Minn., and Chaplain Loyal Mystic Legion of America, writes:

"I suffered for years with a pain in the small of my back and right side. It interfered often with my domestic and social duties and I never supposed that I would be cured, as the doctor's medicine did not seem to help me any.

"Fortunately a member of our Order advised me to try Peruna and gave it such high praise that I decided to try it. Although I started in with little faith, I felt so much better in a week that I felt encouraged.

"I took it faithfully for seven weeks and am happy indeed to be able to say that I am entirely cured. Words fail to express my gratitude. Perfect health once more is the best thing I could wish for, and thanks to Peruna I enjoy that now."—Minnie E. McAllister.

Mrs. Esther M. Milner, DeGraff, Ohio, writes:

"I was a terrible sufferer from female weakness and had the headache continuously. I was not able to do my housework for myself and husband. I wrote you and described my condition as near as possible. You recommended Peruna. I took four bottles and was completely cured. I think Peruna a wonderful medicine."—Mrs. Esther M. Milner.

Congressman Thad. M. Mahon, of Chambersburg, Pa., writes:

"I take pleasure in commending your Peruna as a substantial tonic and a good catarrh remedy."—T. M. Mahon.

Light on Female Diseases.

What used to be called female diseases by the medical profession is now called pelvic catarrh. It has been found by experience that catarrhal diseases of the pelvic organs are the cause of most cases of female diseases.

Dr. Hartman was among the first of America's greatest physicians to make this discovery. For forty years he has been treating diseases peculiar to women and long ago he reached the conclusion that a woman entirely free from catarrhal affection of these organs would not be subject to female diseases. He, therefore, began using Peruna for these cases and found it so admirably adapted to their permanent cure that Peruna has now become the most famous remedy for female diseases ever known. Everywhere the women are using it and praising it. Peruna is not a palliative simply; it cures by removing the cause of female diseases.

Peruna builds up the nerves and restores the appetite and digestion.

Dr. Hartman has probably cured more women of female ailments than any other living physician. He makes these cures simply by using and recommending Peruna.

Pe-ru-na Contains No Narcotics.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotics of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results. It is permanent in its effect.

As a tonic and nerve invigorator Peruna has no equal.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peruna has been used off and on for twenty years. Such a thing could not be possible if Peruna contained any drugs of a narcotic nature.

SUNDAY SCHOOL INSTITUTE.

A Sunday school institute will be held in Tampa, November 26th to 29th, inclusive. Dr. H. M. Hamil and wife, two of the most competent workers in this line in the United States, will be in charge. The institute will be interdenominational, and the sessions will be held in the First Baptist Church. Sessions will be held in the forenoon only, with popular lectures at night. One hour will be given each day to Bible study.

The ministers of Tampa urge Sunday school workers to make preparations to attend the institute while visiting the Fair. The Fair will be great, but we expect this institute to be greater. This is an opportunity which does not come to us every day. The work for children is commanding the attention of the best thinkers of the age. Dr. and Mrs. Hamil have enjoyed rare advantages, and have unusual adaptations for this work. Let everybody come and get inspiration and help.

COMMITTEE.

There is truth in this from The Birmingham News: "Search the criminal records of the land and they will show that more than 75 per cent of the crimes of bloodshed are directly attributable to the concealed weapon, and the horror of the record is that most of the crimes are unreasonable and unwarranted. The concealed weapon makes crime so easy that it is done without thought or consideration, often without reasonable provocation. Imaginary insults quicken the pulse of feverish indignation and some innocent, imaginary offender suffers death or injury and one more criminal is added to the too rapidly growing calendar of convicts and desperadoes."

The Industrial Edition of The Sun, to be issued November 16th, will be the only medium through which Gainesville and Alachua county will be presented to the people the coming fall and winter. It will be made as fine as the printer's art can make it, and the articles will be written by Mr. John O. LaFontisee and The Sun staff. If you have a business that will stand publicity an advertisement in this issue will pay you.

Uncle Sam is a nickname given to the American people as a whole, or to the United States Government as representing the American nation. The nickname, "Uncle Sam," as applied to the United States Government, is said to have originated as follows: Samuel Wilson, commonly known as "Uncle Sam," was a Government inspector of meats in Troy, N. Y., about 1812. A contractor, Elbert Anderson, purchased a quantity of provisions and the barrels were marked "E. A.," Anderson's initials, and "U. S." for United States. The latter initials were not familiar to Wilson's workmen. One of the workmen, when asked what they meant, answered: "I don't know, unless they mean 'Uncle Sam.'" The joke spread through all the departments of the Government, and before long the United States was popularly referred to as "Uncle Sam."

"Fighting the Flames," the most costly and spectacular amusement attraction ever seen in the South, has been secured for the great Florida State Fair, to be held in Tampa, November 15 to 30. This attraction was originally produced at Coney Island, N. Y., and proved the greatest drawing card ever seen at that famous resort. The attraction will appear at no Southern city other than Tampa, and was only secured by a personal visit of President Brown to the managers in New York and at great expense to the Fair Association. No man, woman or child in Florida should fail to see "Fighting the Flames," nor the horse racing, which will be the best ever seen in Florida.

In another column of today's Sun is reproduced a communication from Hon. N. P. Bryan, chairman of the Educational Board of Control, and which originally appeared in The Jacksonville Metropolis of October 23rd. Mr. Bryan corrects the false impression which certain people have been endeavoring to create, and sets forth in a clear and concise manner the aims and objects of the board. There will be no lavish expenditure of funds and the new University buildings will only be erected as the needs of the institution require. The educational affairs of the State are in safe hands, and the people can rest assured that there will be no abuse of power vested in them.

THE UNIVERSITY AT GAINESVILLE

Important Facts Connected With the Important Work.

CHAIRMAN N. P. BRYAN EXPLAINS

No Cause for Alarm Has Been Expressed—Board of Control Says if Plans are Carried Out Florida Will be Proud of Institution.

In the following communication to The Jacksonville Metropolis, Chairman Bryan explains matters in regard to the new University to be erected at Gainesville in a very plain manner:

In your issue of the 17th inst., under the heading, "Will Likely Be a Lively Issue," it is stated in effect that there will be opposition to any appropriation for the University at Gainesville, and that an effort will be made to repeal the Buckman bill at the next session of the Legislature.

You also speak of the "vast amounts of money" necessary to be expended in order to carry out the plans of the Board of Control. You then quote from an article in The Lake City Reporter, in which, among other things, it is said that the plans submitted by Messrs. Edwards & Walter, architects, for the proposed University building at Gainesville, and accepted by the Board of Control, call for an expenditure of $1,500,000. Then follows this statement: "Although the board has at their disposal only about $40,000, members state that the construction of the buildings will begin in December."

You also published a few days ago another article, purporting to come from The Miami Record, in which the claim is made that it would be better to return to the system of higher education in force at the time the Buckman bill became a law, and in which were many appeals to prejudice but none to reason.

I cannot believe The Metropolis would knowingly assist in circulating misleading statements concerning the plans and purposes of the Board of Education and the Board of Control in carrying out the provision relating to the higher institutions of learning established by act of the last Legislature, and therefore, as a member of the latter board, I write you this letter.

Work to Begin.

The statement that members of the Board of Control will begin the erection of buildings at Gainesville is correct. At a joint meeting of the State Board of Education and the Board of Control the funds available were apportioned according to the needs of the four institutions. The sum of $75,000 was appropriated for the construction of buildings for the University at Gainesville. Of this amount public spirited citizens of Gainesville donated $40,000 in cash and bought the old East Florida Seminary property from the State for $30,000, which, in the opinion of the joint boards, was 50 per cent more than it was worth, and besides donated a beautiful site containing 512 acres of land. So that of the appropriation made by the Legislature only $5,000 will be used for University buildings.

Amounts Appropriated.

It is the expressed purpose of the board not to exceed the amounts appropriated by the State Board of Education and Board of Control in joint session in the erection of buildings at Gainesville, and if the article quoted from, as it seems a fair reading of it would lead one to believe, means that the Board of Control will begin the erection of buildings to cost $1,500,000 before the Legislature of 1907 convenes, or if it means that the Legislature at its next session will be asked to make an appropriation of $1,500,000, it has an exceedingly small foundation in fact. The Board of Control in August declined to accept a loan of $100,000 tendered by Mayor Thomas of Gainesville and others.

It is our purpose to stay within the appropriation, and how it could be gathered from anything that was said at the meeting of the board that an expenditure of this amount was contemplated I cannot conceive.

Plans Elaborate.

The plans of the architect were elaborate. The layout of the grounds is intended to be permanent, so that all buildings hereafter constructed as the University grows and they are required, can be placed according to plan adopted in the beginning.

The article from The Lake City Reporter is clearly intended to prejudice the tax-payers against an appropriation on the ground of enormous expenses. It is the old appeal to the pocketbook.

The institutions established by the Buckman bill cost much less than the institutions supported by the State prior to its passage.

In 1903 there were appropriated for the maintenance of the institutions abolished by the Buckman bill, $318,965 for two years, while under the Buckman bill the institutions established thereby are being operated at a cost to the State of $150,000 for two years, or $168,965 less. Besides, this appropriation of 1903 was not as much as was asked for by the trustees of the old institutions, and is much less than was appropriated by the Legislature. Gov. Jennings vetoed portions of the appropriations of 1903 because in his opinion expenditures for college buildings were not authorized in a bill providing for the expenses of the State government, and the appropriation of $318,965 as passed and approved did not specifically authorize the erection of any buildings, but these amounts were "to be used by the trustees for the best interests of said institution." There was a deficit of about $20,000, unless the unexpended appropriation for the East Florida Seminary can be applied to the payment of deficits of the other institutions, and in that event there will still be a deficit of about $10,000.

Of course, the amount of money now available will not be sufficient to construct all the buildings needed at the University, and it will not be contended by any fair-minded person, with a knowledge of the facts, that the buildings at Lake City would be sufficient for a University such as the people of Florida, the tax-payers, if you please, are entitled to have for the education of their children. The trustees of the old University of Florida, located at Lake City, applied to the last Legislature for $70,000 with which to remodel and improve buildings.

Principal Purpose.

The great purpose of the Buckman bill is two-fold: First, to withdraw State aid from so many struggling institutions of learning having insufficient equipment, inferior courses of study and of local benefit and reputations; and, second, to establish instead two splendid institutions of learning, a university for men and a college for women, both thoroughly equipped, with courses of study of the highest and best, efficient faculties, and of widespread reputations.

If this policy is adhered to there can be no question but that all the people will have just cause to be proud of their university and college.

No money will be spent without the approval of the Legislature, so it is unnecessary to become alarmed lest the Board of Control bankrupt the State.

N. P. BRYAN.

DEATH OF GOOD LADY.

Mrs. W. D. Fagan Passed Away Wednesday After a Brief Illness.

Friends were shocked Wednesday to learn of the death of Mrs. Ella Fagan, the devoted wife of W. D. Fagan, which occurred at an early hour Wednesday morning, after a brief illness which resulted unexpectedly in her demise.

Deceased was about forty years of age. She was born in this county, near Windsor, where she spent her girlhood days, and where as a child she was a general favorite with all. Growing into womanhood she became possessed of a most charitable, sweet disposition, which retained the friendship made as a child, and no one who knew her could help but admire her for this Christian disposition. She was a daughter of Mr. and Mrs. F. A. Bell.

About seven years ago deceased was married to W. D. Fagan of this city, and has since resided here. She is survived by a husband and one child, a little son, to whom the sympathy of the community is extended.

The remains will be taken to Providence this morning, where the funeral will be held, the interment being in the Providence burying ground.

Some Fine Cane.

The Howard boys, about eight miles west of Gainesville, are good practical farmers, and have the most desirable location in that section, the land being of a rolling character. In one small area, however, there is a fine tract of hammock, and upon this tract they have possibly the finest cane crop in the county, the plant growing twelve to fourteen feet high. These young planters have agreed to furnish a hundred stalks of cane for exhibition in the Alachua county exhibit at the State Fair.

SOUTHERN BELL AGAIN IN CHECK

Seaboard Endeavors to Prevent Them From Crossing Tracks.

CLAIM THAT IT IS HAZARDOUS

To Lives of Passengers, and Also to Traffic—An Interesting Injunction Suit Which Will be Watched by the Florida Bar.

The Southern Bell Telephone and Telegraph Company, who for the past few months have been endeavoring to construct a long distance telephone line connecting Gainesville and Jacksonville, and through Jacksonville the outside world, seems to be meeting with a great many disadvantages. At the beginning those entrusted to the duty of securing a right-of-way were slow; the contractors delayed the work for some time on account of failure to deliver poles, and other obstacles have been placed in way of the work, notwithstanding that the Southern Bell Company have been anxious to push the same.

But the latest obstruction comes from Starke, and is in the nature of a bill of injunction prohibiting the crossing of the tracks of the Seaboard Air Line at that place. Starke is the first point at which it has become necessary for the wires of the Southern Bell to cross the tracks of the Seaboard, and that great corporation, through its attorney, has caused to be issued from the judge of the Eighth Judicial Circuit a writ of injunction, upon the grounds that the crossing of the wires of the Southern Bell Telephone and Telegraph Company may interfere with traffic, and may endanger the lives of passengers on said road.

The outcome of this injunction will be awaited with considerable interest by those interested, and the members of the profession throughout the State. Attorneys for the Southern Bell cannot understand the attitude taken by the Seaboard at this particular point, since they declare that no objection has ever been made in similar cases elsewhere.

Attorney J. E. Futch of Starke is pressing the case for the Seaboard, while Attorney Evans Haile of this city represents the Southern Bell.

REYNOLDS-GIDDINGS.

Marriage of Two Former Young Gainesville People in Rome, Ga.

The Rome Tribune of recent date bears information of the marriage of Miss Elizabeth Reynolds of Los Angeles, California, and Horace Giddings of Atlanta, which happy event occurred in St. Peter's Episcopal Church on the afternoon of October 14.

The contracting parties are well known here, where they spent their youth. Mr. Giddings is the son of the late Dr. and Mrs. Giddings, and for the past two or three years has held a responsible position with the Armour Packing Company. The bride is the daughter of Mr. and Mrs. Roth Reynolds, who also resided here for some time, Mr. Reynolds holding a clerical position with the United States land office.

The Tribune states that Mr. and Mrs. Giddings will make their future home in Atlanta. Their numerous friends here wish them much happiness in the married state.

THE YELLOW FEVER.

Pensacola Sees the End—New Orleans Continues to Gain.

Pensacola, Oct. 25.—Four new cases and no deaths today, which makes the total number of cases 500 and the total number of deaths 68. There are now under treatment 69 cases.

The record yesterday was nine new cases and one death. The authorities continue cheerful, and insist that the end is in sight.

At New Orleans.

New Orleans, Oct. 25.—One new case and no deaths was the record up to noon today. Yesterday there were four new cases and two deaths. Total deaths to date, 443.

Suicided on Son's Coffin.

New York, Oct. 25.—Crazed with grief over the death of his son, who committed suicide with illuminating gas last week, Herman Schultz shot himself through the head today while the funeral service was being read over the body of his son, and fell prostrate across the coffin, dead. Mrs. Schultz and her three daughters fainted, and the funeral of the son was postponed that both the father and son might be buried together.

Window Displays a Part of the Life. Waists, Practical and Dressy, in Tempting Styles—Saxony Flannel and Embroidered Cashmeres.

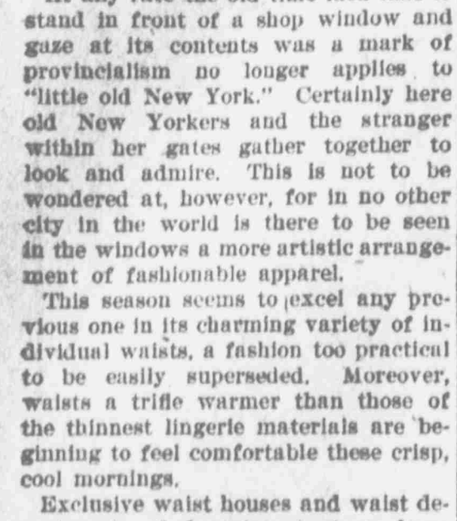
By RENE DEVERAUX.

At any rate the old time idea that to stand in front of a shop window and gaze at its contents was a mark of provincialism no longer applies to "little old New York." Certainly here old New Yorkers and the stranger within her gates gather together to look and admire. This is not to be wondered at, however, for in no other city in the world is there to be seen in the windows a more artistic arrangement of fashionable apparel.

This season seems to excel any previous one in its charming variety of individual waists, a fashion too practical to be easily superseded. Moreover, waists a trifle warmer than those of the thinnest lingerie materials are beginning to feel comfortable these crisp, cool mornings.

Exclusive waist houses and waist departments of department stores have ready made and are making to order practical shirt waists of Saxony flannel that launder as well as cotton fabrics. Some of the smartest of these are in small stripes and checks on a white background fastened with medium sized pearl buttons down the front and finished with a stitched pocket on the upper left side.

Cashmere, henrietta and nun's veiling in soft pastel shades are again



A MODISH TAFFETA SILK WAIST.

enormously popular. These are daintily trimmed with lace inserting or bit of hand embroidery, and the expert needlewoman who so desires may buy a plainly fashioned waist, adding the little smart touches in the way of hand work.

An exceedingly effective waist, and, by the way, quite inexpensive, was made of white nun's veiling with bunches of tucks both back and front. Between the tucks on either side were small hand embroidered stars in a pretty shade of blue. The cuffs were deep and finely tucked, and a tucked stock with a soft blue silk tie added a becoming finish.

The fashion of buttoning the waist down the back, which seems more popular than ever, admits of many charming ways of trimming which would otherwise be impossible. This fact was demonstrated in a dressy white taffeta waist whose charm was its novel trimming. This consisted of a tiny little square in front formed of rows of lace inserting around which and turned at the corners were bias pieces of the silk attached successively in four rows, each piped with a suggestion of soft blue taffeta. This square yoke effect extended well down to the bust line in front, giving a quite broad shouldered effect, and terminated in the back in a short square yoke. The sleeves were made with plain deep cuffs finished at the top with two corresponding bias pieces piped with blue.

Lingerie waists of handkerchief linen and other sheer fabrics will be worn during the winter with the tailor gown and for indoor purposes. To be worn with these, silk underslips, to give additional warmth, may be found ready made. These are brought out in blue, pink and a pretty shade of lavender, but white is more generally worn.

[Our readers may have any question concerning fashions or fabrics answered by Rene Deveraux, the fashion expert, by addressing Rene Deveraux, P. O. Box 929, Madison Square, New York, inclosing stamp for reply.]

TAX RETURNS ARE TOO LOW.

State Examiner Discovers that Prop Returns Are Too Small.

Montgomery, Ala., Oct. 24.—State Examiner of Public Acounts finds that the property of Shelby county is given in at about half its real value to the tax officers. It is shown that there is an increase in valuations in 1905 over last year of $199,252. The valuations in 1904 were $4,575,974.

These facts were brought out by an examination of the books of the officers of the county, just finished by Mr. Gorman. It is found that Judge of Probate A. P. Longshore had made a mistake against the state of $36.35, and Tax Collector J. H. Robertson $10, both of which amounts were remitted at once. The other officers whose books were examined were Tax Assessor J. H. Pitts, Superintendent of Education J. O. Dorrough, Sheriff R. F. Cox, Clerk J. R. Lyke, ex-Clerk J. P. Pearson.

Shelby is one of the best counties in the state, having several lines of railroad, valued in 1904, at $1,941,251, with other public utility valuations as follows: Telegraph lines, $74,722; telegraph, $14,923. Besides this it has $195,310 in water company values.

With all these and a number of furnaces and other iron works, it is seen that the lands are given at a very low figure, especially as they are in many cases underlaid with valuable minerals.

Woman Charged with Pickpocketing.

Atlanta, Oct. 24.—After shadowing the "woman in black" who was believed to be the female pickpocket, and the leader of the gang which robbed a number of people in the city last Friday. Detectives Simpson and Lanford and Patrolman Roberts arrested, in the Kimball house, yesterday Mrs. Henry C. White, and placed her in the female detention ward at the police barracks. At the same time they arrested a young man who gave his name as Charles Gray. When searched, Mrs. White was found to have $244 hid on her clothing, done up in five packages, and the officers believe this is a part of the money which they made so many rich hauls while the president was in Atlanta.

Cures Winter Cough.

J. E. Gover, 101 North Main street, Ottawa, Kan., writes: "Every fall it has been my wife's trouble to catch a severe cold, and therefore to cough all winter long. Last fall I got her a bottle of Horehound Syrup. She used it and has been able to sleep soundly all night long. Whenever the cough troubles her, two or three doses stop the cough, and she is able to be up and well." 25c, 50c and $1. Sold by W. M. Johnson.

Consumption of Natural Gas.

Washington, Oct. 24.—An important report will shortly be issued by the United States geological survey on natural gas and its prdouction and consumption. It will show that in 1904 the United States produced 98 per cent of the world's known output of gas, the value being $38,496,760. Four states—Pennsylvania, West Virginia, Ohio and Indiana—produced 93.3 per cent of the output in the United States, Pennsylvania leading with 47 per cent of the whole amount.

Seven Men Drowned

Beverly, N. J., Oct. 24.—A launch containing ten men, all of Philadelphia, collided with a barge in the Delaware river, of this place, resulting in the drowning of seven of the occupants of the little boat. The other three were rescued by the crew of the tugboat Bristol, which was towing the barge when the accident happened. Those rescued are Captain John Winch, owner of the launch; W. F. Russell and C. Rutherford.

Full of Tragic Meaning

Are these lines from J. H. Simmons of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for consumption, coughs and colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At all druggists; guaranteed; 50c and $1.00. Trial bottle free.

MOZLEY'S LEMON ELIXIR

REGULATES THE
LIVER,
STOMACH,
BOWELS,
KIDNEYS.

The inventor of the famous "TERRELL SCRAPE," a man known wherever plows are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 12 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Plow Co., Atlanta."

GOVERNOR'S MANSION BURNS.

Missouri's Executive and Family Have Narrow Escape from Flames.

Jefferson City, Mo., Oct. 24.—The governor's Mansion at Jefferson City was damaged to the extent of $10,000 by fire this morning at 3 o'clock. Governor Folk, his wife and guests had to seek quarters at a nearby hotel.

Governor Folk, who was aroused by the crackling of the flames, telephoned to the fire department and then attempted to extinguish the fire, burning in the second story hallway, with two fire extinguishers. This proved ineffective, and after seeing his wife and their five guests were safely out of the mansion, the governor devoted himself to saving the portraits of his predecessors in office, pending the arriv of the firemen. The fire is believed to have started from a flue in the hallway. After more than an hour's labor, the fire was txtinguished.

The mansion was erected in 1872 at a cost of $75,000. Since then frequent appropriations have been made by the legislature and the improvements and furnishings have cost $75,000 more. The loss is fully covered by insurance.

New German Ambassador.

Berlin, Oct. 24.—The retirement of Count Von Alvensleben, the German ambassador at St Petersburg and the appointment of Herr Von Schoen lately minister of Germany at Copenhagen, were announced today Herr Von Schoen is 50 years old. His most important service was at Paris, where he was secretary of the embassy for seven years. Captain Von Alvensleben was an attache in Washington in the early seventies, and minister there from 1884 to 1888. He retires on account of age and indifferent health.

Steamer Launched at Chattanooga.

Chattanooga, Tenn., Oct. 24.—The Dorothy K. James, a steel steamer built here was launched this morning. She was constructed by shipwrights imported from the east who have been at work for three months. The boat only draws ten inches but has power enough to tow four large barges. She will be used to take material to the contractors for the lock and dam at Hale's bar.

Anxiety Felt for Steamer.

Cleveland, O., Oct. 24.—Anxiety is felt here for the safety of the steamer S. J. Hecker, owned by the Gilchrist Transportation company of this city. She has not been heard from since the big storm of last Friday. The Hecker passed port Huron, bound for Sault Ste Marie last Thursday evening, since when no tidings have been received from her.

TOWNS LOCATED ON DESERT.

Government Will Stand Sponsor for New Municipalities.

Washington, Oct. 24.—Two towns for which the United States government will act as sponsors will be created next month in southern Idaho, on sites which now are an absolute desert waste. Names already have been chosen for them—Heiburn for the first who officially is to be created one week later. The two towns will be seven miles apart. Sales of town lots will be conducted under government auspices on the days the towns are erected. The lots will be sold to the highest bidded. While the country is now a desert, it is expected that the great irrigating canals which the government is constructing at a cost in excess of $3,000,000 will make it very productive. The towns are located on the recently constructed branch of the Oregon Short Line railroad.

Only Stole $100,000 Says Cunliffe.

Pittsburg, Oct. 24.—Edward George Cunliffe, the express robber, in a long interview in a local paper, denies that he took the odd $1,000 with which he is charged in adition to the $100,000 package and states that his object in going to Bridgeport was to obtain employment on one of the oyster boats of the Bridgeport fleet, a plan that was frustrated by the fact that the boats were not working on account of some labor trouble.

Tired Nervous

When you feel languid, tired, nervous and irritable, your vitality is low—your supply of nerve energy exhausted, and your system running down for lack of power,

The organs of the body are working poorly, or not at all, and you are not getting the nourishment needed. This soon impoverishes the blood and instead of throwing off the impurities, distributes it all through the body. This brings disease and misery.

Feed the nerves with Dr. Miles' Nervine, a nerve food, a nerve medicine, that nourishes and strengthens the nerves, and see how quickly you will get strong and vigorous.

"My wife suffered with nervousness previous to a recent attack of typhoid fever, but after her recovery from the fever, she was much worse, and could hardly control herself being exceedingly nervous when the least excited. She was very restless at night, and never had a good night's rest. She also suffered much from nervous headache. Dr. Miles' Nervine was recommended by a friend. After the first three doses she had a good night's rest, and at the end of the first week's treatment she was wonderfully improved. Continued use of Nervine has completed her entire cure."

OTTO KOLB,

Friends of Mr. Denton will be glad to learn that he is prospering.

Mr. Kennard's Freak.

Since mentioning in The Sun the freak in the nature of a two-bodied and five legged cow, owned by G. T. Kennard, several hundred people have gone to the home of Mr. Kennard to see this curiosity, and all have been astounded at the peculiarity of the same.

Mr. Kennard expects to take the cow to the State Fair at Tampa. It is still in his possession, and is grazing peacefully and perfectly content on his range in South Gainesville every day. Those who desire to see this freak before its departure for the Fair may call within the next week. No admission will be charged, and the public is welcomed.

We have just opened up a large assortment of strong Satin Calf and genuine Black Goat Bals.

Men's Shoes of the best make worth $2 to $2.25 will be sold for.... **$1.50 & $1.60**

While they last.
